NUMBER 43

Boards Of Trade Plan Publicity For Okanagan

Advantage To Be Taken Of Opportunity Afforded By Vancouver Jubilee

The Vancouver Jubilee, with its attractions for Okanagan visitors and the possibility that it holds for favourable Okanagan publicity, occupied a large portion of the business section of the dinner meeting of the Okanagan Valley Boards of Trade at the Royal Anne Hotel on Friday night. Mr. S. Miller, President of the Kelowna Board, was in the chair.

After the business meeting, the gathering was favoured with two interesting addresses by Hon. K. C. MacDonald, Minister of Agriculture, and Dr. J. Allen Harris, M.L.A. for South Okanagan. The substance of their addresses will be found in another portion of the Courier.

The possibility of a large attendance of Okanagan visitors from Vernon, Kelowna and Penticton, at the Jubilee, in answer to an invitation from the Vancouver Board of Trade, was discussed at some length and, with the possible exception of some members of the Penticton Board, met with the hearty approval of the meeting.

It was decided to ascertain what transportation arrangements could be made in regard to special coaches or a special train to accommodate those interested, and concerted action will be forthcoming along this line.

The tremendous field of favourable advertising at the Jubilee was driven home by various speakers, among them Captain H. P. Coombes, who made the point that in the course of his life he had never seen more beautiful scenery than that which he enjoyed while motoring between Vernon and Kelowna.

Discussion Of Advertising Methods
Various means of advertising were discussed, and it was decided that pamphlets would provide the most adequate coverage at the least cost. The point was stressed that none of the Boards had very much money to expend on such a project and that it would have to be of an economical nature.

(Continued on page 4)

EXCEPTIONALLY HEAVY CODLING MOTH CAPTURES

Spray For First Brood Should Be Completed By Thursday Of Next Week

Growers of the district are warned by Mr. Ben Hoy, District Field Inspector, that spraying for the first brood of Codling Moth should be complete by Thursday of next week and that it should be repeated often enough to secure an adequate coverage.

Codling Moth captures during the past week have been exceptionally heavy, a large number being taken on each day than on any day during 1935. The worms are expected from the middle to the end of next week and an aggressive campaign appears necessary to get control of the situation for the coming year.

Mr. Hoy explained that the surface area of an apple increases at this time at the rate of approximately 350 per cent in 17 days and care should be taken that spray be applied so as to leave a covering of arsenate of lead as long as there is any danger.

Control of the first brood of the Codling Moth is of vital importance to the grower, according to Mr. Hoy, who explained that, while a female of the first brood will lay approximately thirty eggs, those of the second will lay upwards of 250 and are much harder to control. It is therefore in the interests of the grower to see that as small a percentage as possible of the first batch live to lay eggs later in the summer when conditions are ideal for their rapid growth.

CONSERVATIVES TO CHOOSE DELEGATES FOR CONVENTION

Meetings Of Kelowna And South Okanagan Associations Are Being Held This Week

Meetings of the Kelowna Conservative Association and of the South Okanagan Conservative Association are being held this week for the appointment of delegates to attend the Conservative Convention which will be held in Vancouver on Monday and Tuesday, June 29th and 30th. It is expected that the choice of delegates will be made at the latter part of this week.

Dr. F. P. Patterson, well known Vancouver physician, who recently addressed the South Okanagan Conservative Association in this city, is expected to be asked to head the party for the province.

The convention, which had been slated for the early part of June, was postponed until the end of the month to permit the attendance of Rt. Hon. R. B. Bennett, Hon. Grote Stirling and other federal members after the House at Ottawa prorogues in the middle of June.

Hon. R. B. Bennett will be in Vancouver at the time of the convention to open the Jubilee celebrations.

The bounds of a man's knowledge are easily concealed if he has but prudence.—Goldsmith.

KELOWNA CROWD INTRODUCED TO BOX LACROSSE

Game Between Squamish Indians And Home Oil Teams Gives Exhibition Of Fast Play

Okanagan sports fans got their first real taste of box lacrosse on Monday afternoon and were given a unique opportunity to see the promising material available in the Okanagan, when the Kelowna and Vernon Juniors mixed it in three ten-minute periods, and were also given a demonstration of what they can develop into when the Squamish Indians and Home Oil teams, star Coast attractions, tangled in a fast moving game which saw the Indians take the Homes to camp 15-13 after a sharp struggle.

The new game was played as a special attraction at the big Empire Day Gyro show on Monday and amply fulfilled the expectations of the crowd.

Opening with swift action, concerted team movement, smooth passing and deadly, rifle-like shots at goal, the big game had not been under way more than two minutes when Izzy Weinborn of the Homes slipped a fast one into the Indians' tepee, but exactly one minute later Cecil Van Emery, redskin flash, evened matters up and then in the course of a few minutes play scored again to give the Indians a one point lead which they held, except for two instances in the third and fourth quarter, when they were tied 11-11 and 13-13.

Oscar Bomberly, "Red Bomber" from the Six Nation country in the East, assisted with a pass from Stew that made it look as if a first class massacre was in progress. Johnny Dale, however, scored a neat one for the Homes and then in a moment another one slipped past the Indian.

KELOWNA SCOUTS HOLD SUCCESSFUL ENTERTAINMENT

Pleasingly Varied Programme Is Thoroughly Enjoyed By Large Audience

The 1st Kelowna Troop of Boy Scouts lived up to their best traditions as entertainers when they presented a varied and interesting programme on Friday evening, in the Scout Hall, before a large and appreciative audience. The galleries were well filled and the attendance of adults was considerably larger than it has been for a number of years.

The hall was artistically decorated with flags, bunting and greenery, the ensemble representing many hours of work, as the Scouts have to go further afield every year for supplies of fir and cedar boughs. A combined Kelownians-Ambassadors orchestra provided suitable music and accompaniment during the entertainment and played for the dance which followed.

Scoutmaster E. Pettman, who was in general charge of the programme, was aided by Mr. Bob Hayman as announcer. Falling in by patrols, the Troop came to the "alert" while "O Canada" was sung, with the audience joining. Breaking off, the Troop next appeared when the curtains at the south end of the hall were drawn aside, revealing a temporary stage upon which the Scouts were arranged in tiers. From this point of vantage they sang a chorus of welcome to their guests which was well received.

Returning to the main floor, intricate marching evolutions to the music of the orchestra were carried out very creditably. A halt being reached, a series of quite strenuous exercises followed, including "on the hands down" familiar in war days, under the direction of the Scoutmaster.

Next in order came a regular three-ring circus, the triple event including swinging on the rings, tumbling and vaulting the horse, carried on simultaneously. Some of the work was done, and the boys showed the benefit of careful training.

An amusing interlude was furnished by a travesty on a fashion show in which a number of Scouts made individual appearances in a wide variety of costumes, their antics in imitation of (Continued on Page 5)

H.H. TOMATOES AND CUCUMBERS UNDER CONTROL

Such Commodities Must Be Sold Through Interior Vegetable Marketing Agency

Producers of hothouse tomatoes and cucumbers have been advised by the Interior Vegetable Marketing Agency that the sale of these commodities must be made through the Agency and that their entire crop must be signed up to an authorized representative.

The Agency, having been appointed sole marketing agent for the Interior Vegetable Board, has advised its representatives that, should they wish to contract a crop for any grower, or growers, they should do so immediately. All such contracts are subject to the regulations of the Board.

It is understood that short term pools will be operated on the tomato sales, the returns going to the Agency with later distribution to the growers.

Lord Mayor of London May Visit Okanagan

The Lord Mayor of London, Sir Percy Vincent, may be an Okanagan visitor this summer, if his plans can be made to fit in with an invitation which will be issued him by the Okanagan Valley Boards of Trade. The joint meeting on Friday evening went on record as heartily endorsing such an invitation, and it is hoped that, while in Vancouver in connection with the Vancouver Jubilee celebrations, he will be able to make the trip to the Interior.

Several speakers at the meeting stressed the point that, unless concerted effort is made to attract the Jubilee visitors to the Okanagan, they will leave with the idea that Vancouver and its environs constitute the entire area of British Columbia.

NEED TO WIDEN UTILITY SCOPE OF FARM CROPS

Co-ordination Essential Between Farmer, Industrialist And Scientist

Stressing the point that the real hope for agriculture lies in a co-ordination of the efforts of the farmer, industrialist and scientist, Dr. J. Allen Harris, M.L.A. for South Okanagan, gave the joint meeting of the Okanagan Valley Boards of Trade, on Friday evening, a glimpse of the possibilities that are brought nearer every day in regard to the wholesale use of farm products in industry.

During the decade from 1921 to 1931, the food needs of the United States decreased by an amount corresponding to that required for 90 million people merely through the replacement of the horse on the farms by gasoline driven machinery. Not only were the food requirements of the country lessened, with a corresponding decrease in farm produce sales, but farmers were required to go into (Continued on Page 10)

OFFICIAL OPENING OF AQUATIC SEASON NEXT THURSDAY

Many Improvements Effected To Premises And Equipment Since Last Year

The Aquatic Club will be officially opened for the season of 1936 on Thursday, June 4th.

As noted elsewhere in this issue, the Ladies' Auxiliary will hold their annual Fashion Parade in the afternoon, and the season's first dance will take place in the Pavilion that evening.

Members attending the opening functions will discover a complete renovation of the Pavilion interior, and a striking new decoration scheme has added much to the appearance of Kelowna's favourite summer dance resort. A carefully prepared new dancing surface has been laid and a new orchestra stand constructed. With new lighting fixtures and the whole interior carrying out the nautical motif apparent in the form of life belts, port-holes, deck rails and so forth, a novel and gay atmosphere has been obtained that will add much to the pleasure of those attending the various functions held during the season.

The opening dance will be free of admission to fully paid-up members and the directors of the Association, who are again this year personally handling ticket sales, are now conducting a membership drive.

Ogopogo Rises From Squally Point Lair

Two Reputable Citizens Of Penticton Claim To Have Seen Mysterious Denizen Of Depths

Ogopogo, first citizen of the Okanagan and well known inhabitant of Okanagan Lake, whose chief characteristics are his size and shyness, has appeared again to silence all those who doubt the existence of the premier tourist attraction of the valley.

Two Penticton citizens of blameless character and reputation, Mr. W. X. Perkins, proprietor of the Grand Forks Garage in that city, and Mr. M. Larama, his assistant, have reported seeing the monster a short distance off Squally Point, near Peachland, on Sunday at 1 o'clock in the afternoon.

Fishing near the point in question, the two men suddenly became aware of a large animal, or fish, within a few feet of their boat. They described the monster as being round, dark in colour and considerably longer than the boat. When it disappeared from view it created a heavy disturbance in the water.

An interesting sidelight on the incident is that Indian legend has always credited Squally Point with being the home of a supernatural monster. For fear of meeting the unknown inhabitant of the deep, the red men always gave the point a wide berth and never camped near it.

Perfect Weather Adds To Success And Enjoyment Of Empire Day Track Meet

SCHOOL PUPILS GIVE DISPLAY ON EMPIRE DAY

Physical Drill And Folk Dances Provide Very Attractive Features

Opening the Empire Day celebration on Monday morning was a presentation unique in the history of the meet, when more than five hundred pupils from the Elementary and Junior High Schools of the city combined to present a programme demonstrating what has been done this year in regard to massed physical education. So attractive were the various displays given that the unanimous opinion of the spectators appeared to be that this should be made an annual event and that more work along this line should be carried out in Kelowna.

The presentation had been prepared on short notice, only three weeks' training being given for the intricate dances, and great credit to both teachers and pupils is deserved.

The first item on this portion of the programme was the picturesque Maypole Dance, when ninety-six children from Grades 1 to 5 performed the traditional ceremony of Elizabethan England around six Maypoles. A slight hitch occurred in the proceeding when it was found that an error had been made in placing the ribbons on three of the poles, but an attractive spectacle was presented. An interesting feature of this presentation was the fact that the best performances were turned in by the youngest children, those from the first grade being excellent.

The second division saw two English country dances performed without hesitation or a slip of any kind by the girls of the Junior High School, who put on an excellent show and went through the intricate measures in a way that reflected great credit upon themselves and Miss Ann Fulton, under whose supervision the dances were carried out.

More than two hundred children took part in the next item, a splendid display of massed physical education under the direction of Messrs. Arnold Jones and Charles Leigh, and went through a programme of gymnastic exercises that gave the audience a real thrill. Rhythm, concerted effort and excellent control were features of the exhibition which brought several bursts of spontaneous applause from the spectators.

The final item on the programme was a display of two more country dances by a selected group of girls from the Junior High School, who again turned in a faultless performance.

In thanking the spectators for their appreciation, Mr. C. J. Frederickson, Principal of the Elementary Junior High Schools, stressed the point that the programme had been made possible only through the co-operation of teachers and pupils, who had given up a great deal of time to practice.

TO STUDY ART OF SPEAKING IN PUBLIC

Junior Board Of Trade Aims To Encourage Members To Express Their Ideas

Several committees of the Junior Board of Trade are now functioning smoothly and are preparing reports on their activities to be presented at the next general meeting which will be held at the Board of Trade rooms on Tuesday, June 2nd, at 8 o'clock.

One of the most active committees is that on public speaking, under the capable directorship of Harry Mitchell, who has interested himself in this work to a great extent. In consideration of the fact that the Junior Board is primarily a training ground for Senior Board members of future years, it is felt by all connected with the Board that a definite programme along these lines would be of considerable assistance in creating a greater measure of self-confidence.

It is proposed that a definite programme be undertaken which will provide for addresses by well known local speakers, informal debates among Board members and prepared debates of a competitive nature. By means of such activity it is hoped that members will be encouraged to take an active part in the organization and to express their ideas freely, rather than leave the bulk of the talking to a few.

PENTICTON BUILDING BOOM CONTINUING

May Total Stands At \$29,000 For New Homes And Alterations

PENTICTON, May 28.—Penticton's building boom, which has given it third place in the entire province for construction since the first of the year, is continuing with the total now reaching \$138,375.

The May total up to date, exclusive of public buildings or commercial er-

TRIUMPHS!

COOK RYAN

MINISTER OF AGRICULTURE OPTIMISTIC

Difficulties Not So Overwhelming Now As They Were A Few Months Ago

"Although there are a great many difficulties facing the men in public office at the present time, I am now more hopeful of the eventual outcome of present conditions, and the clouds have lifted to a certain extent," said Hon. K. C. MacDonald in addressing the joint meeting of the Okanagan Valley Boards of Trade at the Royal Anne Hotel on Friday evening.

The Minister of Agriculture asserted that, although conditions were not yet satisfactory by any means, the difficulties and problems now were not as overwhelming as they were a few months ago. With such bodies as the Boards of Trade of the province, there rested a tremendous responsibility and many opportunities for good work and constructive criticism and suggestions.

The modern trends of independence of thought and action, although sometimes embarrassing to a government, were held up by the speaker as real aids to better government and if the intelligence and desires of the people could be combined to advantage, he predicted that the province would soon win its way out of its difficulties.

The Minister explained that the administration of the province at the present time was particularly difficult because of the financial stringency which had its repercussions on every undertaking attempted by the Government.

Completion Of Hope-Princeton Highway

It was hoped to complete the southern highway from the Interior to Vancouver in a short time. The situation in regard to the Hope-Princeton road was that the Government would have to put more money into it and make it complete in order to get anything out of it.

Opposed To Highway Commission
"I am unalterably opposed to a Highway Commission," stated the Minister, who expressed the fear that, should such a commission be set up, it would tend to become autocratic and to favour the large centres.

No Enthusiasm For Kelowna-Naramata Road

The speaker was not overly enthusiastic in regard to the Naramata road linking Kelowna and Penticton on the east side of Okanagan Lake. He expressed the opinion that the government would be better advised to establish the roads already in existence before others are constructed.

Progress In Agriculture
In regard to his own department, that of agriculture, Hon. Mr. MacDonald explained that considerable progress had been made.

DANGER FROM POWER LINES IN SPRAYING

Two Fatalities In Wenatchee District Attributed To Spray Forming A Conductor

The possibilities of orchard spray providing a conducting agent for high tension electricity from power lines adjacent to orchards received considerable discussion at a recent meeting of the Summerland Council.

The matter arose from a report from the Wenatchee district of the death of two men spraying an orchard as the result of an electrical shock, apparently received when their spray came in contact with power lines. The theory advanced is that the spray provided a perfect conductor for the power.

ectons, stands at \$29,000. This amount is from the construction of new homes and alterations. A palatial \$9,400 home is being constructed on the lakeshore for Dr. W. Roy Walker.

IDEAL early summer weather provided a delightful atmosphere for the keenly interesting programme provided both morning and afternoon of Empire Day by the Gyro Club of Kelowna. Undimmed by clouds, the sun shone brilliantly all day long. A few scattered wisps loitered along the horizon in the morning but by noon they had all disappeared and the intense sapphire blue of the Okanagan sky supplied an entrancing vault to the arena in the City Park. Although the temperature rose to over eighty, the heat did not seem oppressive and the large crowd of spectators, clad in summer garb, basked in the warmth.

The grand stand was filled to overflowing almost from the outset and a large number of cars were parked around the central enclosure. In all, it is estimated that fifteen hundred enthusiastic people witnessed the day's events, which commenced with the picturesque quaint old English Maypole dance. Six Maypoles, with gaily coloured ribbons attached to the top, were surrounded by groups of small boys and girls, who tiptoed to the old Elizabethan melodies, discouraged by Mr. Billy Murray on his violin through the medium of a microphone and loud speaker, the while they wove the ribbons about the poles.

Two folk dances, which followed, were carried out entirely by older girls, mostly of teen age. They were executed both with grace and accuracy, and the volley of applause from the spectators gave testimony to the merit of the performance.

Next came a most striking and fascinating exhibition of physical drill by over two hundred school children of all ages, from quite small tots to those of larger growth. They carried out a number of calisthenic movements in wonderful unison, the lack of blemish in which showed infinite care and patience on the part of their instructors.

(Continued on page 9)

WOMEN'S INSTITUTE PROVIDES ELMS FOR CEMETERY

Ten Dollars Contributed Towards Community Work In Okanagan Falls Flood Area

An account providing for a number of Siberian elms to beautify the Cemetery driveway was passed at the regular monthly meeting of the Kelowna Women's Institute on Tuesday. A sum of \$10 was voted to the Okanagan Falls Women's Institute to aid in community work in the stricken district.

There will be no meeting in the month of June, as the Institute will celebrate its twenty-first birthday on Monday, July 6th. A basket picnic will be held at the Rotary beach, Westbank. Each member will be asked to bring a friend.

Hostesses for the day were Mesdames McCulloch, Mitchell and Blakeborough.

AMERICAN TOURNAMENT SUNDAY AT TENNIS CLUB

Three Front Courts Will Be Reserved For Play

Plans are being made for an American Tournament to be held at the Kelowna Tennis Club on Sunday, May 31. The three front courts have been reserved for the tournament play and those not entering will have courts 4 and 5 allotted them.

Play for places on teams for the forthcoming inter-club matches will continue during the next few weeks until the comparative strength of all players has been ascertained.

A representation from the Kamloops Tennis Club was expected to put in an appearance for play on Monday but did not arrive. Plans for this match have been postponed indefinitely.

Temperatures

Summer hit Kelowna suddenly during the past week, sending the mercury soaring above the 80 mark for three consecutive days and making ample preparation for the coolness of the past month. Kelowna, however, escaped the full blast of the heat wave which was felt in the southern portion of the Valley where temperatures of 96 and 98 were registered. The official temperatures, as recorded on the government thermometer, were as follows:

	Max.	Min.
May 21 to 27		
Thursday	65	47
Friday	69	38
Saturday	74	42
Sunday	76	42
Monday	84	47
Tuesday	85	54
Wednesday	85	62

THURSDAY, MAY 28, 1936

PHYSICAL EDUCATION

The folk dance classes at the Okanagan Musical Festival probably have given spectators some inkling of the modern broadening of education from mere book learning to care of the body as well as the mind, but it is safe to say that the majority of people know comparatively little of the splendid work that is being carried on in this connection with infinite care and patience by the teachers, and that the display by the school children at the Gyo Track Meet on Empire Day came as a revelation. The physical drill was performed with much smartness and, besides being exact in its timing and synchronization, showed graceful poses, free of jerkiness, calculated to aid the development of young and growing bodies.

The valuable work which is being done by the teachers is to be supplemented this fall by the institution, under the auspices of the Department of Education, of classes in physical training open to young people in general instead of being confined to the schools. Besides physical drill, instruction will be given in various games and sports, wrestling, boxing, life saving and other useful and beneficial accomplishments. So far, this scheme of physical education has been confined to Coast centres, but it is now proposed to expand it to the Interior. If the response is sufficiently enthusiastic, an instructor will be stationed permanently in Kelowna and the work will be carried on continuously.

The scheme may be regarded as a development along the lines of modern social legislation, which recognizes the responsibility of the state for the physical as well as the mental well being of its citizens. Failure of a large proportion of recruits in the Great War to comply with the moderate standard set of physical requirements revealed the need of better housing, better feeding, more sanitary surroundings and regular exercise, and since then there has been a distinct advance along these lines, with a marked increase in popular interest in and support of all measures designed to better conditions.

The world in general, and Kelowna in particular, owes much to the Scout movement for the physical training it imparts under firm but kindly discipline, while it inculcates unselfishness, consideration for others and love of the outdoors and of nature in general, thus developing mental qualities which produce the best type of citizenship. Any general scheme of physical education will supplement and expand the work of the Scouts but it cannot supplant the benefits it confers by hiking, exploration, nature study and cultivation of resourcefulness in emergencies and many branches of practical and useful knowledge.

To the leaders of Scouts, Cubs, Girl Guides and Brownies, who during the past twenty-five years have given unselfish and patient devotion to the training of their young charges in the best principles of true sportsmanship, a debt of gratitude is due that never can be paid but it can be recognized by hearty and adequate public support of their efforts as well as of the new scheme of physical education.

CLOSER RELATIONS WITH BEAVERDELL

Now that amalgamation has been effected of the Highland Lass and Bell mines in Beaverdell Camp, with the head office of the new \$1,500,000 company located in Kelowna, it becomes more essential than ever that some betterment be effected of the means of communication between the mines and this city, which is heavily interested financially in the Beaverdell area. The Kelowna-Carmi-Beaverdell road has proved of much benefit in development of the mining section, but very little has been done to maintain it and complaints are being made of its condition, particularly between McCulloch and Carmi, a portion that has had little work on it since its construction.

Road appropriations admittedly are very meagre and there is much to do with a limited amount of funds, but improvement of the Kelowna-Beaverdell road to a reasonable extent would seem to be well worth while in view of the close relations now existing between the termini and the steady contribution of the Beaverdell mining area to the wealth of the province.

SAFE DRIVING

Convinced that only by education can the heavy toll of automobile accidents be reduced, Mr. A. F. Falls, F.C.A., retired City Auditor of Windsor, Ont., has launched a campaign to introduce safe driving courses in every High School in Canada, and he expects to have such a course introduced into the secondary school of the town of Amherstburg during the coming school term.

Throughout the past year, the Windsor man has written to education officials in the nine provinces of Canada and the forty-eight States of the Union and he has gathered together complete data on safety education, including more than a dozen samples of courses now in use in American schools. He is placing this material at the disposal of any Canadian official or private citizen interested in automotive safety work.

"A critical situation exists in our national life in which we very much need the help of the High Schools," Mr. Falls states. "It seems to me that the High Schools of the country can do more to cope with the problem of automobile fatalities in a fundamental way than any other agency that can be brought into action."

"In one year in the United States 36,000 people are killed and more than a million injured, a shocking total that represents an increase of 15 per cent over previous years. The economic loss is one and a half billion dollars a year, more than the value of the output of the automobile industry in 1934 and almost equal to the entire cost of the public school system."

"It is inconceivable that people will stand indefinitely for such wanton slaughter and waste. The High School may hold the key to the situation, for the problem is largely educational; furthermore, the young driver is a problem in himself, since statistics indicate that the high point for accidents occurs among drivers considerably under thirty."

"A railroad," Mr. Falls points out, "does not put a man in charge of a locomotive until he has had

POINTS OF VIEW

THE 1936 TREE FRUIT BOARD

(Vernon News)

Tuesday, June 2, is announced as the date for the nomination of members of the Tree Fruit Board. The fruit growers have had an interim and an annual report. They have had payment for most of their apples and now they have the privilege of choosing the men they wish to compose the Tree Fruit Board for 1936.

The three members of the Board, since it was first named, are the most likely nominees. The growers have had opportunities for observing these men in action. The Board members have been in the best position of any person to know the requirements of the industry. They have, so far as outsiders can see, made no serious blunders. They were criticized to some extent for their handling of the appointment of an auditor, but in this, as in all other events, there were two sides to the case and the firm to whom they entrusted the work is highly regarded. From action to be commenced on June 2 it is regarded as almost a certainty that Messrs. Haskins, Barrat and Hembling will again emerge as the members of the British Columbia Tree Fruit Board. The very nature of their experience is such as to fit them for the positions.

GOVERNMENT PRINTING ECONOMY?

(Cowichan Leader)

Preceding the last Dominion election The Leader criticized the action of the Government then in office for the change in policy whereby the printing of the voters' list was taken out of the hands of private printers and done in the Government's printing bureau at Ottawa.

Now the full story can be told. As we prophesied, it is just one more case which shows that work performed by a government is never produced at as low a cost as when done by private individuals. The debit balance we, the taxpayers, must again dig up.

Last year the cost of printing this complete lists was \$335,000. In 1930, private print shops did it for \$228,864. But that is not all; in order to handle the work the Government purchased \$100,000 worth of new machinery. It was good business for someone and a fine thing for Ottawa printers, who worked overtime and double time while journeymen throughout Canada were scraping along on short shifts. In addition, many more errors in names occurred than when the printing was done in each constituency.

WHEN THE TAXPAYER TURNS

(Enderby Commoner)

When the open bar was a business proposition in British Columbia, and the selling of liquor not a medium of revenue for inefficient government, the barkeepers themselves brought disrespect upon their business by their greed for gain. They failed to live up to the requirements of the law, and thereby failed to hold the confidence of the people, with the result that the people voted the open bar out of existence.

When beer halls were established to take the place of the open bar, it was with the object of lessening the drinking of hard liquor and at the same time holding up the revenue governments had to have from the liquor traffic.

When relief started it was with the object of aiding the needy and keeping homes intact and children provided for.

But beer halls and relief have degenerated into a racket ruinous to the generation they would help.

Sooner or later there will be a revolution of parents of the middle class struggling to get along without either beer halls or relief.

Existence is more—much more—than simply catering to man's weakness. Governments cannot continue long that only give to the poor to keep them in idleness, and deaden men's finer sensibilities by providing slush halls for their undoing.

As young men and women break into manhood and womanhood what has the state to offer them to encourage and inspire? Only beer halls and unemployment relief.

After all those years of doing, of commissions and relief investigations, has nothing come to the surface which might lead to a clearer plan to advance the position of the unemployed? Or are the unemployed unemployable by preference?

CONTROL OF BROADCASTING

(Victoria Colonist)

What is the thought lying behind the decision of the Federal Government to reform national broadcasting has not yet been disclosed. The system, as at present practised, is allegedly outside political control; the object seems to be to establish that control. That conclusion is inevitable, judging from the answer of Mr. C. D. Howe to a brief prepared by the Canadian Radio League urging that radio control should be kept out of politics. Mr. Howe says that the system which prevails in Great Britain "won't work in Canada". He believes that he, as Minister, must shoulder all the responsibility, and he says that Sir John Reith, general manager of the B.B.C., "has made himself so unpopular that even the British Government won't talk to him."

That, of course, is a statement very far fetched, which illustrates how slimly Mr. Howe is informed on the British broadcasting situation. It is also gratuitous to say that the method in Great Britain would not work in this country. In effect, Mr. Howe, on behalf of his Government, wants to secure absolute control of broadcasting, presumably so that it may be used for political purposes. The future of broadcasting, therefore, has not a pleasant significance, because it could never be at its best when subjected to partisan control, which means political patronage. If broadcasting is going to remain a national institution, then it should be preserved and developed as a national asset. The Government, as such, is ignorant technically about radio matters; one may often believe that it would be equally ignorant about the tastes of the people for national programmes. In any case, constant interference from the Government, or rather from one Minister responsible, will not be likely to increase the popularity of the Canadian system. That system has a hard and, we fear, a losing fight on its hands, in competition with the great broadcasting agencies of the United States. The fight will necessarily be made all the harder when political control is exercised in this country.

Man supposes that he directs his life and governs his actions, when his existence is irretrievably under the control of destiny.—Goethe.

There is not a more pleasing exercise of the mind than gratitude. It is accompanied with such an inward satisfaction that the duty is sufficiently rewarded by the performance.—Addison.

A mixture of ten varieties of wax is used for the making of the lovely figures used in shop windows. The wax is blended in such a way as to withstand the hottest weather.

years of training, yet in places mere children and with no training are legally able to operate high-powered cars, and in no community on this continent, so far as I can learn, have specific agencies been set up for teaching young people how to drive outside of the schools. The young people of our country should certainly have some special education and training before they are allowed to become the drivers of tomorrow."

Mr. Falls is of the opinion that safe driving can be introduced in Canadian High Schools at very little expense and without disrupting existing curricula. He is endeavouring to feel out public opinion in every Canadian community having a High School and will welcome mail addressed to him at Windsor.

STATE FUNERAL OF KING FUAD OF EGYPT

This picture shows the funeral cortege of the late King Fuad of Egypt on its way to the Rifai Mosque in Cairo. The King was buried in a mausoleum, the building of which he himself had directed.

In Bygone Days

From the files of The Kelowna Courier.

THIRTY YEARS AGO

Thursday, May 24, 1906

"The fine Shire stallion 'April Fool', brought from Alberta by Mr. Chas. Hill, arrived on Friday's boat. The animal is said to have cost \$2,100."

"The Kelowna Land and Orchard Co. is arranging for a supply of irrigation water to the one-acre lots south of Mill Creek, and is having a flume built to connect with its main ditch from Mission Creek."

"Mr. W. B. M. Calder brought three fully ripened strawberries of fair size to the Courier Office on Monday. This is remarkably early and bespeaks of a general ripening several days in advance of the average."

"Today being a public holiday, the Band will play in the Park sometime during the evening."

"As the C.P.R. has made no arrangements for a special service north or south on Victoria Day, it debar our citizens from visiting in any number the celebrations at Summerland and Enderby."

"The bishop of the diocese has appointed the Rev. A. St. John Mildmay, of Vernon, to the charge of the lately created missionary district of Pentiction, comprising Pentiction, Summerland and Peachland, thus relieving Rev. Thos. Greene of the oversight of the two latter places."

"The moist weather of the past week has been very welcome to the farmers, and should ensure good crops of spring grain unless exceptionally dry weather ensues when the heads are filling. In view of the wide-spread killing of fall wheat due to the lack of protection by snow, the prospect of a good crop of spring wheat will be cheering to the farmers."

"Provincial Constable H. S. Rose and City Constable W. Brent returned last Thursday from Pentiction. They were patrolling Shingle Creek on the look-out for the train robbers (Bill Miner, Colquhoun and Dunn, who had held up and robbed a C. P. R. passenger train), who would probably have come that way had they escaped arrest in the Nicola. The constables report very bad weather in the mountains, being subjected to a fall of snow one night."

The death is recorded as having taken place at Fort William, Ont., of Mr. H. Deane, formerly teller in the Bank of Montreal at Kelowna.

The proposed by-law to raise \$70,000 for installation of a water system and to assess the necessary taxation in connection therewith in the proportion of two-thirds on the business district and one-third upon the residential portion of the town having been pronounced ultra vires by Mr. F. Billings, solicitor, Vernon, to whom it had been submitted, further action in regard to it was postponed by the City Council.

TWENTY YEARS AGO

Thursday, May 25, 1916

"Mr. Cyril Gore, of Westbank, left this morning for Vancouver, to join the Pioneer Battalion for overseas service."

"Mr. B. F. Petch and family arrived on Monday from Regina. They have taken up their residence on the Goodrich estate at Rutland."

"Pte. O. France came in on Friday evening from Kamloops, having been granted a few days leave on account of a broken nose sustained while playing football."

"At the N.C.O.'s class of the Kelowna Volunteer Reserve, on Wednesday evening, volley and salute firing with blank cartridges was practiced. It is intended to hold field practice in the Park shortly."

"Mr. Featherstonhaugh, of Westbank, left on Monday morning for Winnipeg, where he intends to join Lord Strathcona's Horse."

"News reached town this week that George Kennedy has been injured by shell fire on the fighting line. George will be remembered by all as an employee of the Morrison-Thompson Hardware Co. and also a member of the Fire Brigade. His many friends wish him a speedy recovery."

"In the casualty list issued at Ottawa on the night of May 19th, under the heading of 'Artillery,' appeared the name of Pte. Walter Charman, of Kelowna. In confirmation of this unfortunate report, Miss Hubbard has received a wire from Ottawa, stating that Charman has been seriously wounded in the chest and in the thigh. He was admitted to the St. John's Ambulance Brigade Hospital at Etaples, France. This is the second time that Charman has been wounded, he having been put out of action on a previous occasion over a year ago."

The Kelowna Retail Merchants Association endorsed the action of the Board of Trade in appealing to the City Council to adopt daylight saving.

The funeral of the late Mr. Joe Christien, who

Odds And Ends

A Weekly Causerie by R.W.B.L.

UNION

A worthy member of the United States House of Representatives, hailing from the sovereign state of New York, by name Shirovich, has come forth with a suggestion of a somewhat startling nature which has been caught up by newspapers on both sides of the border with a sharpness that must have rather startled the good Shirovich.

This proposition, as you may know, suggested a union between the United States and Canada and Canadians would then "drop their British citizenship and become American citizens with all the rights and privileges of citizens of the United States of America."

In the glory of his proposal Mr. Shirovich has apparently taken into consideration the fact that one of the strongest international friendships in the world exists between this country and the United States. One thing, however, that he does forget and that is that there is also a healthy amount of national pride in both countries. Such a union would be much the same as a marriage in olden days when a dowry was expected. It would be a long time before salutes would cease as to which brought the most to the wedding. Any such union would be almost certain to foster petty grievances into real points of trouble.

Better true agreements, better public relationship and a better expression of the true and true friendship which exists between the two countries should be sought untiringly, but union would not appear to be the solution.

MOSQUITOES

There has been a great deal of talk in regard to the mosquito situation in Kelowna this season. In spite of an energetic campaign by the local Mosquito Control Association, there is a goodly crop of the winged pests, and this does not create a favourable impression of the Orchard City to the casual visitor.

The recent Shippers' Tournament was a case in point. The mosquitoes were so bad on the opening day that several contestants withdrew after playing a few holes. It is difficult to concentrate on golf when something the approximate size of a willow grouse lands on the back of your neck and plunges a red hot needle into your spinal column. Think it over for yourself. When out-of-town competitors are asked how they enjoyed the Kelowna tournament the only thing that will come to their minds will be the mosquitoes. That is most definitely bad. All the hospitality in the world can't overcome an obstacle like that.

What is the matter with this town anyway? It should not be the work of any organization to fight the mosquito. Storekeepers and merchants should not be expected to dig down year after year. It should be the work of the City.

The present control association is seriously handicapped by a shortage of funds. Under present conditions, it is impossible to treat the more outlying districts properly for fear of a shortage of money should the local area require additional attention.

Kelowna would do well to invest some money in the control of the mosquito in this district. All the publicity in the world received at Wenatchee, the regatta or anywhere else is of little use if the principal delegation to meet spring visitors is made up of mosquitoes.

Kelowna, in common with every other city in the world, may be a little short of funds at the present time, but something should be done along the lines of a concerted civic effort to get rid of these pests and the sooner it is done, the better.

LET'S GO FISHIN'

Now that the sporting goods stores are beginning to dress their windows for spring it is becoming more and more apparent that we never grow up. Fishing, shooting, tennis, golf, but especially fishing, hold an eternal lure for the masculine mind, be it six or sixty. Whether it is the traditional bent pin, bit of string and crooked hook or a split bamboo rod, tapered line, hand-tied fly and Hardy reel, it makes no difference. The greatest democrats of the world are the fishermen. It is that four-lettered word, fish, that makes all men equal.

You ought to stand outside Joe Spurrier's, or Temba's or any of the hardware stores that cater to the sports-conscious males. There is almost sure to be a bunch of kids around and their principal conversation will be centred on the merits of the dollar forty-nine outfit in the centre of the window. It's there, all right, the same old urge to get out into the open, to see a fish rise, to feel the thrill of a strike on your tackle and to see the gleam of silvery scales in the late afternoon sunshine. These are the things that really count.

With spring in the air, we all begin to realize that a few miles off the beaten track will take us where the cares of the world will slip off our shoulders. Maybe you haven't tried it for a while. Let's go fishin'.

WHO STOLE THE SHOW?

Two weeks ago there was a front page article in the Courier as to how the Kelowna representation at the Wenatchee Blossom Festival "stole the show". In the corresponding issue of the Pentiction Herald there appeared a story telling how the Pentiction Princess, Evelyn Nicholl, with the Royal Canadian Mounted Police escort, "stole the show".

The whole thing, however, has been straightened out by an independent observer who does not come from either Kelowna or Pentiction. Said he, "The Canadian representation stole the show at Wenatchee, all right. The Pentiction Princess and the Kelowna Highlanders were cheered all the way down the line. The Valley got a million dollars worth of publicity from the show."

Well, I guess that settles that and everybody ought to be happy.

AUF WIEDERSEHEN

And so we come to the bottom of a pile of "odds and ends" that have been cluttering up the desk and the paper. The end of the series of programmes from this station has arrived and there is little else to do but say adieu. For to the Pentiction Herald we travel. There will be a number of things that I will miss on leaving the Orchard City, most important of all being my friends. Kelowna is essentially a friendly town and in leaving may I say, with deep appreciation, that everyone in this city with any brains, or any beauty, has been very nice to me. I thank you.

The man who talks everlastingly and promiscuously, who seems to have an exhaustless magazine of sound, crowds so many words into his thoughts that he always obscures, and very frequently conceals them.—Washington Irving.

No one loves to tell of scandal except to him who loves to hear it. Learn, then, to rebuke and check the detracting tongue by showing that you do not listen to it with pleasure.—St. Jerome.

The method of the enterprising is to plan with audacity and execute with vigour; to sketch out a map of possibilities, and then to treat them as probabilities.—Bovee.

Let us have faith that right makes might, and in that faith let us, to the end, dare to do our duty as we understand it.—Abraham Lincoln.

Those who refuse the long drudgery of thought, and think with the heart rather than the head, are ever the most fiercely dogmatic in tone.—Bayne.

Everett-Hayman Recital

At First United Church
Friday, June 5, 8:30 p.m.

ARTISTS:

ORGAN: Joyce Hayman holds Certificate of Merit from Royal Academy of Music, London, England. This is the highest award offered by this institution. Miss Hayman has given several recitals at Pacific Coast points. For two years, as tutor and accompanist at a School for the Blind in San Francisco, she took part in "The Blindcraft Weekly Ensemble" over Radio Station KJBS.

PIANO: Clifford Everett, recently of Vancouver, Concert Pianist, with eight years experience in teaching and public piano performance.

Sponsored by The KELOWNA BOYS' BAND ASSOCIATION
Tickets: Adults, 50c. Children, 25c. On sale at Chapin's, Trench's and Kelowna Pharmacy.

A Steinway Grand Piano will be used for the recital.

This is the best coffee you have ever made. what kind is it, Alice?

The same kind of coffee, dear. it's St. Charles that makes the difference!

You'll be really amazed to find how the fresh creaminess of St. Charles brings out all the best flavour and subtle aroma of your favourite coffee. St. Charles blends so smoothly that you'll say you never knew before how good coffee could taste!

And if you like a good, old-fashioned cup of tea—the kind that revives and cheers—you'll find St. Charles adds the final touch of satisfaction.

St. Charles is extra-fresh, full-cream, country milk, evaporated to double richness in spotless Borden Condensaries. In coffee and tea, or any recipe that calls for cream, use it just as it comes from the tin.

Try St. Charles, too, for rich, nourishing casseroles, smoother creamed soups, delicious puddings and cakes. To make rich fluid milk, add an equal quantity of water to St. Charles. Be sure to ask for St. Charles Milk in the tin with the "Gold Cow" on the blue and white label.

LETTERS TO THE EDITOR

APPRECIATION OF THE SCOUTS AND THEIR LEADER

Kelowna, B.C., May 26, 1936.
To the Editor,
Kelowna Courier.

Dear Sir,

Those who were privileged to attend the Concert given by the Boy Scouts in the Scout Hall, on Friday evening last, must have been impressed by the skillful and systematic training exhibited by these youths. From the opening song of welcome, the words of which were composed by Scout Master Harold Pettman, to the "Bugle Band" numbers at the close, every item bubbled with youthful enthusiasm, devotion to the work in hand and loyalty to a most worthy leader. It was surely a "Study in Co-operation" to see these boys working so earnestly together in order that their usual summer camp might again be possible. When Mr. Pettman voiced his expressions of gratitude to those who had supported the concert by attending, I am sure that many in the audience felt that he should have been receiving congratulations on his splendid display rather than to be tendering thanks to those presenting themselves to witness it. Rev. C. E. Davis numbered "Husky" as one of his first "Cubs" in Kelowna, and has watched his development with just pride. It is a task of no small dimensions to hold together some 40 boys, with a year's programme as diversified as that of the Boy Scouts. It is truly a labour of love, and is purely voluntary on the part of their leader. Two long weeks and trips along unbeaten trails were necessary to provide the very colourful "natural decorations" for this concert, and these were undertaken by the Scout Master in person, accompanied by seven or eight of his scouts. Evidence of fine forethought and planning was also to be noted in the parade that took place on Bernard Avenue the Saturday evening preceding the concert. The splendid float that so typically portrayed the "raison d'être" of this undertaking, together with the buglers and drummers in the forefront and the colourfully mounted rear guards at the back (on bicycles) were all worthy of the highest commendation.

To comment on the programme itself, the physical drills were executed with a fine precision that would have done credit to a skilled specialist in physical culture. Again the "Three-Ring Display," which Mr. Pettman characterized as "The Boy's Love of Tumbling Around," indicates his modest appraisal of his own contribution to this great community endeavour. For indeed a great deal of the "tumbling around" was of a very complicated and skilful nature. The pyramiding, etc., was especially worthy of comment. In many cities boys receive training of this kind at the hands of a well paid instructor, and when our Kelowna boys are receiving such splendid treatment as a "donation" it is the least we can do to say: "Very many thanks to you, Mr. Pettman. Being a man, you would not appreciate a bouquet, but we Kelowna people want to give credit where credit is due." We want you to know that we appreciate your splendid work, undertaken in addition to a busy student life, and we want you to know that you have our whole-hearted support. I am sure I may take the liberty of signing this letter on behalf of the rank and file of the citizens of Kelowna.

Very truly yours,
MRS. GORDON D. HERBERT.

A TRIBUTE TO OKANAGAN LAKE

Horse Creek, Okanagan Mission.
May 24, 1936.

The Editor,
Kelowna Courier.

Dear Sir,

I often wonder how many of the dwellers in our Valley fully appreciate our marvellous heritage—the beautiful Okanagan Lake.

In summer's heat, when its vast surface might be one enormous sheet of glass, in winter's zero, when the huge spirals of vapour rise to the sky; in the fierce gales of the equinox, in its gorgeous rainbow and sunsets, in every one of its varying moods, I look upon it as one of the brightest gems in the glorious creation of God.

Although I have lived on its shores for a quarter of a century and, in sunshine and storm, have travelled many thousands of miles on its surface in my rowboat, even yet, I am never long aloft without being prompted to shout and sing from the sheer joy of life.

It is one of the finest trolly waters in the world, and for food or sport its trout are unsurpassed.

Most of my life's ambitions have long since gone into the discard but one still remains—the capture of a record steelhead in the Okanagan Lake.

Not, in itself, a very lofty ideal, I grant you, but who can gauge the value of the great store of health and contentment gained in its attempted achievement.

Yours faithfully,
J. C. CLARANCE.

SALE OF BARTLETT PROPERTY AT PEACHLAND

Clodagh, Peachland, B.C.
May 25, 1936.

To the Editor,
Kelowna Courier.

Re: Offer of J. McKinnon To Purchase Lot 26, D.L. 1184, Peachland.

Dear Sir,

Referring to the article in the issue of your valued paper of the 21st inst., under the caption, "Peachland Council Accepts Offer for Property," I feel that the public may be left under a slight misconception as to what actually happened, as your correspondent, in my opinion, did not quite understand the argument which I had the privilege of placing before the Council on behalf of Mr. McKinnon, and to clarify the matter I propose to give

Wednesday, 8 p.m., Prayer Service.

Thursday, 8:15 p.m., B.Y.P.U.

the facts as I see them.

On or about the 9th inst. there was a meeting (special) of the Municipal Council called. I am informed, to deal with, amongst other matters, the offer for the purchase of the lot mentioned above. There were two offers for the property made on that date, one made by McKinnon and the other by another gentleman. Both, I am informed, offered the same amount of cash, and to McKinnon's offer was attached a cheque for \$186.50.

At this meeting there were present the Reeve in the chair, Councillors Chidley, Todd and Clement. A motion was made after I presided, the reading of the offer, that the offer of McKinnon for the purchase of the property be accepted. This motion was proposed by Councillor Chidley, seconded by Councillor Todd, that the offer be accepted. Councillor Clement voted in the negative. I have been given to understand that previously to the vote being taken the Reeve had given notice of his intention of voting.

On a division as shown above, there being two in favour of the motion and one against it, this, with the vote given by the Reeve, was classed as a tie and the motion declared lost. When the matter was mentioned to me at a short time after this meeting I felt that the action of the Reeve in thus voting was contrary to Sec. 28 of the Act, but, as I am not a legal man, I referred the matter to a leading counsel of Vancouver, Mr. E. A. Lucas, and, after putting the matter before him as above and mentioning the fact that the other member of the Council, Mr. Eddy was absent, and that the Reeve had given notice of his intention of leaving the chair to vote, I was informed his Honour did not do, but simply voted in the negative) which, however, does not materially affect the matter, I duly received Mr. Lucas' reply, which I quote.

"I have your letter of May 9th. The action of the Reeve was straight in the teeth of the provisions of the Municipal Act. For your information, I quote Section 28 of the Act: "The Mayor or Reeve, as the case may be, if present, shall preside at all meetings of the Council. In all cases where the votes of the members of the Council then present are equal for or against a question, the question shall be negative; and it shall be the duty of the presiding member of the Council to so declare. When sitting in a committee of the whole, the same procedure shall apply, with the exception that any member of the Council may preside. 1914, c. 52, s. 28."

"Under the circumstances as set out by you, the motion to accept McKinnon's offer was, in fact and in law, carried, and McKinnon has a good action to have it declared that it was so carried, and have it carried into effect."

In the meantime a petition had been circulated in the district, and was very largely and influentially signed, and was duly presented to the Council at their meeting mentioned in your issue of the 21st inst. This petition was duly placed before the Council, and a motion made and carried that the Council sit as a committee of the whole to consider the matter. This, of course, would preclude any of the public being present to present McKinnon's case, and it was at this time, after asking and receiving a reply from the Reeve that this was so, that I read Mr. Lucas' letter to the Council as well as my letter to Mr. Lucas.

This property has been jointly owned by Messrs. McKinnon and W. R. Bartlett for about 29 or 30 years. Mr. McKinnon having about that time purchased a half interest from Mr. Bartlett for, I am informed, the sum of \$15,000, and the deed in this connection lies in his lawyer's office.

Besides myself, there were other ratepayers present to support Mr. McKinnon. I refer to a past Reeve, Mr. Grant Lang, and Mr. Pierce, but, as the Council were going into committee of the whole, there was no opportunity of their placing their views before the Council.

It had been the intention of those supporting McKinnon to point out the injustice of selling the property to someone else when the terms as laid down in a By-Law had been complied with, and it was only in the very unlikely event of an adverse decision of the Council, which in the face of such a largely signed petition seemed improbable, that the legal end of the matter should be presented and argued, which, of course, they were perfectly justified in taking, made it necessary to put before them what was in my opinion a good legal opinion, making it obligatory on them to sell the property to McKinnon, leaving out the humanitarian side of the case alto-

GLENMORE

Miss Marian Bateman, of Vancouver, was the guest of her sister, Mrs. H. W. Corner, over the week-end.

We congratulate Art Reed on winning second place in both the 220 yards and 440 yards races at the Kelowna sports on Monday. He was also one of the team in the winning relay race. This speaks well for Art, as he has had no practice whatever this season.

There was a very small crowd at the dance in the School, last Friday evening, owing, no doubt, to the busy season, but those who did attend report good music and a most enjoyable time.

Mr. and Mrs. Archie Rankin returned from their honeymoon on Monday.

The softball game, which was played with the East Kelowna team on Thursday last, ended 3-2 in favour of our boys.

Miss Mildred Hume is spending a few days in town, the guest of her aunt, Mrs. T. M. Ryall.

Mr. Herbert Bailey, of Deep Dale, Man., is visiting at the home of his brother, Mr. Jack Bailey.

Mr. and Mrs. A. P. Bennett, Jr. moved out from town last week and have taken up residence at the Ben-Carr Ranch.

Stewart Macroe, Phil and Cyril Moubrey, spent a few days last week with Mr. Bert Lambly at Cariboo Lake. They report fishing good in that district.

gather, which seemed to me to be about as strong an argument as could possibly be advanced in this man's favour, as it would appear that, paying taxes for such a number of years, even though the later years are in arrears, ought to entitle him to have a very strong claim on his home and land, in fact, a most decided preference over anyone else.

Everyone knows the difficult times that we have passed and are passing through, and it would certainly appear to be a very poor policy to dispossess a man in such times as these, and I do not think that public opinion would stand for it for a moment, and I trust that such a course will not again be even considered by any Council.

Apologizing for the length of this letter,

Very faithfully yours,
SAMUEL A. H. BREW,
Capt. (Retired).

WINFIELD

The Winfield C. G. I. T. held a very successful tea, with sale of work, home cooking, ice cream and other attractions, at the home of Mrs. McDonald on Friday, May 22nd.

The United Church Ladies Aid held their regular monthly meeting at the home of Mrs. C. L. Gunn on Thursday May 21st. Arrangements were made for the annual lawn social to be held the latter part of June.

Mrs. A. Dixon and two sons, of Ponticton, are guests at the home of the latter's sister, Mrs. H. Mitchell.

Mr. and Mrs. J. E. Seaton motored

to Hope on Saturday, accompanied by Miss Grace Lawley, who had spent the past week visiting friends in Winfield.

The Rev. G. R. and Mrs. Tench, accompanied by Mrs. A. Phillips, returned home from Vancouver on Thursday, having attended the General Conference of the United Church of Canada during the previous week. Mrs. Phillips, as lay delegate, will give a report of the conference on Sunday next at the Winfield United Church.

Calyx spraying is pretty well completed, and we have reason to believe the Codling Moth is busy laying eggs the past few nights, so that the arsenate spraying for first cover will be in full swing very shortly.

SAY! ON A HOT MORNING I'LL TAKE MORE OF THESE COOL KELLOGG'S EVERY TIME!

HERE'S an ideal hot-weather dish. Ready to serve with cool milk or cream. Delicious! No cooking or bother. And Kellogg's are oven-fresh when they reach your table. The exclusive WAXTITE inner bag protects them, even in hot, muggy weather. Kellogg's give you utmost value. Made by Kellogg in London, Ontario.

Nothing takes the place of Kellogg's CORN FLAKES

"I thought I couldn't own a Hudson... until I asked the price"

"Imagine a car like this... at a price as low as this!"

MOST people guess the price of a Hudson Eight far higher than it really is. Many of our own owners, right here in town, have told us they didn't think they could afford a car so fine... until they learned how little it cost to buy and run.

It's a natural mistake to make. With its new, advanced styling, this 1936 Hudson looks like a high priced car. In wheelbase... all-over size... room for heads, shoulders, legs... it is actually bigger than Eights costing hundreds of dollars more.

Hudson power sounds like "big money," too... 113 or 124 horsepower. But the truth is, you can't get over 105 horsepower in any other Eight priced \$200 higher. Nor match Hudson's smoothness at any price!

Hudson's low price is even more surprising when you see sworn owner statements reporting gas economy equal to most small Sixes. And total mileages of 150,000, 200,000 and up.

Come in and take a "Discovery Drive" today, in a Hudson Eight. Compare Eights... compare prices... and you, too, will discover how easily you can own a Hudson.

WHITE BEANS; 6 lbs. for 25c

ORANGE PEKOE TEA
Nabob "Special Flavour." Carefully selected pickings, skillfully blended. After testing we can recommend it as a richly flavored, delicious blend.
PER 85c Half pound 43c

ICED TEA RECIPE
Use any good tea. Infuse as for ordinary hot tea, in good earthenware pot. Place ice cubes in glass. Pour on hot tea, flavour with lemon or mint and sugar to taste. Tea is your cheapest and best hot weather beverage—it keeps you cool!

INFORMATION ITEM
What is meant by Orange Pekoe Tea? Orange Pekoe is the smallest and most tender leaf, picked near the tip of the shoot. Its quality in the cup, however, depends on the elevation at which it was grown—the higher the better.

Watch for display advertisement to appear later of Gyro Club Dominion Day Celebration at Kamloops. 40-4c

The Ladies' Auxiliary to the Kelowna Aquatic Club will present their annual Fashion Show and Tea on Thursday, June 4th, at 3:30 p.m., in the Aquatic Pavilion. Admission, 50c. 43-1c

SEE "Here's To Romance," June 4th, and help the Preventorium. 43-1c

NOTICE TO PARENTS

Only those children who are aged six years or before September 1st, 1936 (proof of age required) will be accepted for enrollment in Grade 1. Children must be registered and commence school before September 15th in order to be accepted.

The medical examination of those children expecting to start school in September will be held in the P.T.M. A.R.Y. SCHOOL on June 4th from 9:30 to 11:30 and from 1:30 to 4 p.m.

Parents are urged to bring their children to this examination in order to avoid delay and difficulty later in the term.

KELOWNA SCHOOL BOARD. 42-2c

KELOWNA SCOUTS HOLD SUCCESSFUL ENTERTAINMENT

(Continued from Page 1)

the miening gait of mannequins causing much merriment. In the finale, they all appeared together, the contrasts in attire being ludicrous in the extreme.

Some five different formations of living pyramids were quickly and effectively carried out, earning hearty applause, and were followed by a competition of the same nature on a time basis between two squads.

An imitation of a radio broadcast hour provided a miniature concert programme complete in itself, with vocal and instrumental numbers and a good measure of fun thrown in.

A practical demonstration of signalling and first aid showed what valuable service can be rendered by Scouts in case of accident. The curtains parted to discover an injured Scout lying on the stage, giving vent to particularly dismal groans from time to time as evidence of the "agony" he was suffering. Two Scouts came along and, while one signals for help, the other fashions a splint for the injured leg. Other Scouts answer the signals and hurry to give assistance. A stretcher is improvised from their poles and sweaters and upon it the victim, neatly bandaged and trussed up and still emitting occasional doleful squawks, is borne away.

A playlet, for the direction of which Mr. W. B. Bredin was responsible, was in the nature of a farcical take-off on the type of melodrama beloved of a former generation. The actors, who did very well, included two little terriers, whose movements were followed with keen interest and amusement by the audience, especially the juveniles, one of the dogs making a number of subsequent unauthorized appearances.

A mouth-organ quartette discoursed old-time melodies, individually and together, with good effect and had feet time all through the hall. A violin solo followed, and the concluding item of the programme was supplied by the Troop bugle band, which rapped out two stirring numbers in excellent style and earned a vociferous encore.

In a few appropriate words, characteristically brief, Scoutmaster Pettman thanked the audience for their attendance and patronage, and the floor was then cleared for dancing, which was carried on until about 1:00 a.m. The ladies of the Auxiliary served dainty refreshments.

Through the medium of The Courier, the members of the Troop wish to express their hearty thanks to all those who gave assistance in any way towards preparation for the entertainment, naming in particular Mrs. A. C. Poole, Mrs. W. Shugg, the Ladies Auxiliary, Messrs. D. Chapman, W. B. Bredin, J. W. B. Brody, W. J. Galbraith, R. Hayman, W. Lloyd-Jones, S. M. Treadgold, the Musical Festival Committee, for stage, and the United Church Hall Committee, for loan of mats.

SUMMER EVENING TALKS AT UNITED CHURCH

Series Of "Studies In Everyday Characters" By Rev. Dr. McPherson

Beginning on Sunday, the minister of the United Church will give a series of summer evening talks on "Studies in Everyday Characters" as follows:

May 31st—"Grappling with one's evil star."
June 7th—"The man who is indispensable."
June 14th—"The fellow with an eye for number one."
June 21st—"The lad who never gets a chance."
June 28th—"What He might have been."

These services are bright and cheerful and continue from 7:30 till 8:30 p.m. Strangers and visitors to our city are cordially welcomed.

The new headquarters of the Okanagan Union Library is rapidly nearing completion and the book van has been busy during the past few days bringing in the large quantity of books that will be kept here. The stuccoed building with its green roof presents a very attractive appearance.

Local And Personal

Mr. R. W. Wilcox, of Camo, was in town on Saturday.

Mr. S. J. Borland, of Vancouver, was in this city recently on business.

Mr. J. C. Dufresne, of Vancouver, was in this city on Monday.

Mr. G. E. Dodge, of Kamloops, was a Sunday visitor to Kelowna.

Mr. W. P. Gunn, of Victoria, was a Coast visitor in the city on Wednesday.

Mr. A. E. Edwards, of Seattle, was a guest at the Royal Anne hotel on Wednesday.

Mr. and Mrs. C. L. Fillmore, of Vancouver, visited with their Mr. Don Fillmore, here at the week-end.

Miss A. McNabb and Miss A. Lee were Kamloops visitors in this city on Sunday, stopping at the Royal Anne.

Dr. and Mrs. F. P. McNamee, of Kamloops, were registered at the Royal Anne at the week-end.

Mr. John Rose, well known Vancouver wholesale druggist, was in Kelowna on business on Monday.

Mrs. Wendell C. Morrison left on Tuesday for Prince George, on a two-week holiday trip.

Messrs. A. G. Cherry and C. Dennet were Ladner visitors in this city on Sunday.

Mr. and Mrs. M. Miller and family, of Beaverdell, were in this city over the week-end.

Messrs. L. A. and E. L. Lewis, of New Westminster, were guests at the Mayfair Hotel over the week-end.

Mr. Charles Cooper was a Grand Forks guest registered at the Mayfair Hotel on Saturday.

Mr. and Mrs. J. Hardwick, of West Summerland, were in Kelowna on Saturday.

Messrs. J. Miller, J. Stewart, D. Orr and James Dundson, of Summerland, were visitors in Kelowna on Thursday of last week.

A new Kelowna company is that of Pacific Fruit Exporters, Limited, which has been incorporated with a capital of \$10,000.

Mr. George McGinn and Mr. Fred Sell, of Kamloops, who came to Kelowna to attend the Empire Day celebration, were guests at the Mayfair Hotel during their stay in the city.

Mr. Bob Waters, of New Westminster, was accompanied by his mother, Mrs. Lucy Waters, while in Kelowna to take part in the 25th of May track and field meet.

Mr. C. Roscoe, of Calgary, made a visit to Beaver Lake on the 25th and returned fully convinced that that body of water offers unexcelled fishing.

Hon. K. C. MacDonald, Minister of Agriculture, was a guest at the Royal Anne Hotel while in this city to address the Okanagan Valley Boards of Trade.

Mr. E. E. Winch, C.C.F. M.L.A. for Burnaby, gave an interesting informal address at a meeting in the Orange Hall on Thursday evening, which was well attended.

Mr. and Mrs. W. R. Trench arrived home from Vancouver on Saturday night. They were accompanied by their daughter, Mrs. J. A. Henderson and her son, who will visit them for a few weeks.

Mr. J. S. Vollet is a guest at the Willow Inn this week while engaged in a canvass of the city for advertising in the new telephone directory for the Okanagan Valley, publication of which is now in the hands of the Vernon News Limited.

The many friends of Mrs. B. McDonald extend their sympathy to her in the death of her father, Mr. Thomas Alexander Hardie, of 1034 Denman Street, Vancouver, who passed away on Friday, May 22nd, in his eighty-sixth year. The funeral was held on Tuesday in Vancouver, where Mr. Hardie had resided since 1907. Two daughters survive, Mrs. McDonald and Mrs. M. Meldrum, of Saskatoon.

Lack of support from Kelowna citizens for the local branch of the Canadian Concert Association has rendered it impossible for this organization to carry on for another year, the recent drive to obtain the required minimum of three hundred members having secured only one hundred and sixty. A public meeting will be held, however, in the Royal Anne Hotel on Monday, June 8th, at 8 p.m., to discuss the formation of a Kelowna Concert Association, by means of which it would be possible to arrange for a series of concerts by well-known artists. It is hoped that all the former members of the Canadian Concert Association and all interested in the movement will attend.

The Kelowna commercial classes operated under the Night School regulations of the Department of Education, recently completed their second year's course, thirty-four students having taken advantage of the opportunity to improve their commercial intelligence. The organization of the work has come under the supervision of Mr. C. J. Frederickson, Principal of the Kelowna Junior High School, in co-operation with the local school board. The teachers engaged for the purpose have been Mr. and Mrs. Gordon D. Herbert. The following students have ranked above the 80 per cent margin in the recent exams: Bookkeeping: Russel Sloan, Mabel Swainson, Marjorie Pearcey, Helen Edwards and August Casorso. Short-hand: Eleanor Harrison, D'Arze Dendy and Marjorie Hill. Typewriting: Mabel Swainson, August Casorso, Lloyd McClure, Helen Edwards and Eleanor Harrison.

Mrs. Violet Catter, of Penticton, was a recent visitor in Kelowna.

Mr. H. A. Fairbairn, of this city, visited Penticton on business recently.

Mr. Kenny McRae, of Revelstoke, was in town on the week-end.

Mr. and Mrs. F. C. Smith, of Vancouver, were in Kelowna on Saturday.

Mr. and Mrs. J. A. Jones, of Vancouver, were Coast visitors in town on Saturday.

Mr. A. J. Burnside, of Penticton, was a guest at the Royal Anne Hotel on Friday of last week.

Mr. G. P. Melrose, of the Forestry Department, Victoria, was in Kelowna on business on Saturday.

Mr. J. H. Constantine, of Vancouver, was in Kelowna on business on Wednesday.

Mrs. C. C. Fuller, of Okanagan Mission, left for New York, via C.P.R., on Saturday.

Mrs. G. C. Benmore left for Vancouver, via C.P.R., today, Thursday.

Mr. Ian McLaren left for Vancouver today, Thursday.

Mr. and Mrs. T. G. S. Chambers, of Vancouver, formerly of Rutland, were the guests of Mr. and Mrs. A. K. Loyd over the week-end.

The Retail Merchants Bureau of the Kelowna Board of Trade will hold a meeting on Friday evening at the Board of Trade rooms, at 8 o'clock.

Mrs. H. P. Menzies, of Vancouver, accompanied, by her little daughter, will be a guest at the Willow Inn for the next two weeks.

Miss E. Parrott, Miss A. Parrott and Miss Bennett, all of Penticton, were Royal Anne guests during the early part of the week.

Mr. W. R. Trench left on Monday morning for Nelson and other Kootenay cities to pay official visits to the Masonic Chapters.

Mr. and Mrs. C. Ward and daughter, Patricia Ann, of Okanagan, Washington, were southern guests at the Mayfair Hotel on Monday.

Considerable activity has been noticed along the waterfront as boat owners, spurred by the warm weather, are preparing their craft for the summer.

Members of the Penticton Municipal Council made an inspection tour of the Kelowna power house on Tuesday. Councillors J. W. Johnson, B. Cousins and Ian Sutherland, Municipal Clerk E. C. Brazeau, Supt. A. R. MacCleave and Electrical Foreman G. Robinson were in the party.

The first performance of the opera "Princess Ju Ju", in aid of the Parish Hall fund for the Anglican church, was held in the Orange Hall on Wednesday night, before a small but appreciative audience. Leslie Harrison, Bert Johnson and Daphne Russell headed a cast of thirty, all of whom turned in excellent performances.

LUNCHEON FOR VANCOUVER BOARD OF TRADE VISITORS

Delegation Will Be Entertained And Given Drive Through District

The visit of fifty members of the Vancouver Board of Trade to this city on Friday, June 5th, will be the occasion of a luncheon in honour of the visitors at the Royal Anne, which all members of the Board of Trade are invited to attend. Any intending to do so, however, are requested to get in touch with the Secretary of the Board, as a large attendance is expected and reservations are necessary.

After luncheon, arrangements have been made to take the Vancouver men for a drive through the district in order to give them a comprehensive idea of the beauties of the Okanagan. Members of the Board, or their friends, who can provide transportation for the afternoon are asked to get in touch with the Secretary.

BATTLE CUTWORMS WITH POISON BAIT

From the viewpoint of the gardener and the vegetable grower, cutworms are among the most important insects to be combated. They do an immense amount of damage annually, especially in the spring and early summer when the plants are young. The type of injury caused by these insects varies considerably with the species responsible for the damage. Most commonly, cutworms while feeding at the ground level cut through the stem of the plant, causing it to fall over and eventually die. Climbing cutworms ascend the plant and feed on the foliage while other species attack the root system. Most cutworms are nocturnal in habit, hiding in the soil by day and emerging in the evening to feast upon their favourite kind of plant. Cutworms are widely distributed throughout the Dominion.

Under garden conditions, cutworms can be controlled by a poisoned bait which is broadcast over the soil either before the seeds are planted or prior to the setting out of the young plants. The bait is composed of the following ingredients—bran, 20 pound; molasses, 1 quart; paris green, 1/2 pound; and water about 2 1/2 gallons. In making the bait, says Alan G. Dustan, of the Field Crop and Garden Insects Division, Entomological Branch, Dominion Department of Agriculture, in charge of vegetable insect investigations at Ottawa, the dry ingredients should be mixed thoroughly first of all. The molasses is then stirred into the water and this solution added to the bran and the paris green. In mixing the bait, add only enough water to make the material the consistency of wet sawdust. It must not be made sloppy but so that it will crumble in the hands and slip through the fingers easily.

SKILFUL PIANIST

MR. CLIFFORD EVERETT

well known locally as leader of Kelowna Boys' Band, who will be heard in recital on June 5th.

JUST CHATTER

(By B. F.)

The United Church Conference

The past week has been a hectic one, attending the United Church Conference of British Columbia, which is the largest yearly conference of any organization regularly assembling in the province. There are other conventions of greater numerical strength which meet in Vancouver, but there is no conference which meets each year that exceeds its registrations. If anyone is inclined to imagine that the ministers and laymen are not awake to the present trends, they should just attend a meeting, for the great difficulty is for committees to secure sufficient time on the agenda to bring their particular problems before the assembly, and not the least interesting is the attitude of many of our ministers to present day conditions. Some of the remarks passed, if made in the assemblies of their fathers, would have shocked their ancestors beyond recovery. Many of these preachers are keenly alert to present day trends and are well able to express themselves. Perhaps the greatest handicap in such meetings is that too many find words too easy. An interesting feature was the frank and wholesome manner in which many sought to overhaul their "own house" and set it in order for the new order of things. No church is not dead by any means.

To the writer one of the finest features was the type of young man who is coming into the ministry. They are able and gifted and there is little danger of the standard lowering so long as young men of the type ordained come forward, with full realization of the difficulties of their calling, and dedicate their lives to sacrifice. One cannot help comparing such young men with some whose whole aim in life seems to be to have a good time and satisfy their own desires.

Tokyo Giants Play Ball

As a relax we went to see the Tokyo Giants play ball, and that is just what we did. Unlike many of the previous professional teams, there was no by-play or clowning. The game is a serious business to them. Just before the umpire called "Play ball," they all ran on the field, lined up, solemnly took off their caps and bowed in unison. After that it was a case of "to business." There was none of the Coley Hall gallery play of "rushing" the umpire, and only once was there any semblance of a question. That was when the umpire called a long drive down left field "fair," when there was a doubt as to whether it was "foul." When the famous Trastolini started his clowning it was something they could not understand, and especially when he coolly took up the place of coach. Then there was a hasty council of war, and a deputing politely visited Mr. Umps asking for an explanation of this new feat. When Mr. Umps pointed a finger at the clowning Trast, the latter immediately ran off like a scared cat.

That Memorial Arch

This week-end we visited across the line and, as we passed the much advertised Peace Arch at Blaine, we were thoroughly ashamed. Why? Because on the States side the lawns were neatly and carefully cut and trimmed, and looked particularly smart and attractive. On the Canadian side, the grass was from a foot to eighteen inches high, full of dandelions, weeds and entirely unkempt and neglected. If that Peace Arch is worth anything, and if it means anything, it surely is worth a few dollars a year to keep the approaches neat and cut. The contrast was so marked, it made one blush for shame that the Canadian authorities were so careless that they would not even cut the grass. This is something that should be attended to at once. If the authorities did not intend to pay attention to the plot, they should never

In Eastern Canada, the bait should be spread evenly and thinly over the surface of the ground a few days before seeding or transplanting. It is important that this should be done in the evening and only following a warm day, since, if the night is cold, little feeding will take place and the bait will be wasted. If the plants are already in the garden, a teaspoonful of the bait around the base of each plant in the evening will give good results.

In British Columbia the method of control is much the same as in Eastern Canada. However, in this province the addition of three or four lemons to the bait is advocated. Both the juice and the rind are used, being added to the liquid part of the bait during its preparation. Bait should never be left in a place accessible to children or livestock as it is a deadly poison.

We Visit Bellingham

We have often visited this fine little city, but on the 24th of May it was different. The greatest difference was that it seemed as if all Canada had been let loose, and as if this American city had suddenly been turned into a gigantic well known department store 95-cent day. The day was hot, and it was a seething, milling bargain hunting mob, who puffed and turned, and wrestled, and jostled around, each bent upon saving a nickel, and apparently having the pleasure of paying a token. Upon the return fortunately we started early and even at that it was a long, almost unbroken trail of cars, but we understand towards evening that it became a sight to see, for the cars were jammed like cardines for miles and miles and one party left Bellingham at 7:30 in the evening, and finally reached Vancouver (a little more than 60 miles) at 1:45 a.m. If the new exemption of purchases up to \$100 from duty was intended to stimulate visiting across the line, it certainly was an unbound-

PREVENTORIUM RECEIVES GENEROUS SUPPORT

Special Showing Of Picture To Be Made In Aid Of Institution

With eleven patients at the present time and with prospects for more applicants than can be given attention after the closing of school, the Gordon Campbell Preventorium has begun its season's operations, aided by a considerably increased public interest.

Local merchants and citizens have made generous donations of food and needed materials, while parents of the inmates have aided in every possible way. In aid of the funds of the Preventorium, a special return showing of the picture "Here's to Romance," starring Nino Martini, will be given at the Express Theatre on Thursday next, June 4th, with a matinee at 2:30 p.m. and two shows in the evening. It is hoped that liberal patron

TALENTED ORGANIST LOCAL ARTISTS WILL BE HEARD IN RECITAL

MISS JOYCE HAYMAN

Who will be heard in recital on Friday, June 5th, together with Mr. Clifford Everett, accomplished pianist.

Miss Joyce Hayman And Mr. Clifford Everett To Give A Concert

Music lovers of Kelowna will be pleased to learn of the opportunity that will be afforded them on Friday evening, June 5th, of hearing two local artists of rare ability and musical insight.

Mr. Clifford Everett, well known as Bandmaster of the Kelowna Boys' Band, is perhaps not yet so well known as a master of pianoforte technique, except to the small circle which has been privileged to hear his skill and talent at this instrument. Kelowna has welcomed him as a bandmaster, she will now have the opportunity of welcoming him as an artist performer, another acquisition to the ranks of rare talent. He comes from Vancouver with a fine reputation and background of many years of exhaustive study.

Miss Joyce Hayman, a native daughter of whom Kelowna is justly proud, will be heard in a varied capacity, as organ soloist and in a beautiful portrayal of the symphonic accompaniment to the Grieg piano Concerto. Her many years of organ study at the Royal Academy of Music, London, England, has developed a rare understanding of her instrument and a fine ability to interpret the art of the composers whose messages of beauty and artistry she is able so vividly to portray. Joyce Hayman comes to us with the highest recommendations from Mr. G. D. Cunningham, and Dr. Stanley Marchant, eminent English organists. Since returning from England, Miss Hayman has spent two years in San Francisco, where she has been heard in weekly programmes over the radio station KJBS of the "Blindcraft Weekly Ensemble."

The programme to be given in Kelowna will include piano solos from the rare old masters, Beethoven, Chopin and Liszt, while the more modern school will be depicted in the "Danse of Olof," by Pick-Mangiagalli. Organ solos will include Bach, Mendelssohn, of the old masters; Sibelius, Cesar Franck, and Pietro Yon representing the more modern school. The feature performance of the programme will be the Piano Concerto in A minor, by Edvard Grieg, with orchestral accompaniment especially adapted for this occasion to the organ. This outstanding composition is played and loved the world over. Its themes are typically Nordic in character with the great rhythmic ease peculiar alone to Grieg. The opening movement, conveying the grandeur of Norway, also suggests in a gem-like way the fiord, glaciers and artistic detail of this beautiful land, followed by a lovely quiet theme portraying the modest self-possession of these people. In the final movement, extremely dramatic in character, one becomes conscious of the virility of this animated people, profound joy is felt in this rhythmic structure, bringing to a close possibly the greatest work of Grieg.

Announcement of this recital is given elsewhere in this issue, where full particulars may be noted.

OKANAGAN COW-TESTING ASSOCIATION

Butter-Fat Results For the Month of April

In the following list of the Okanagan Cow-Testing Association's test results during the month of April, the name of the cow is given first, followed by the name and address of her owner, the total in pounds of milk yielded during the month, pounds of butter-fat produced, number of days since freshening, and total pounds of butter-fat since commencement of production, if period is in excess of one month.

PENTICTON ODDFELLOWS TO ATTEND GRAND LODGE

Grand Lodge Gathering At Chilliwack To Have Southern Representation

PENTICTON, May 28.—A large number of Penticton Oddfellows will be in attendance at the convention of the Grand Lodge of British Columbia, which will be held in Chilliwack early in June.

Arrangements have been completed to invite the convention to meet in Penticton during 1937. Grand High Priest Q. Matson will extend the invitation.

BOYSCOUT COLUMN

1st Kelowna Troop

Troop First! Self Last!

By Scoutmaster

Orders for the week commencing Thursday, May 28th, 1936:

Duties: Orderly patrol for the week, Wolves; next for duty, Eagles.

Rallies: The Troop will rally at the Scout Hall on Tuesday, June 2nd, at 7 p.m. Band practice will also take place on the same night, so, all boys in the band, do not forget to bring your instruments.

The concert returns were better than last year, although as yet we cannot say just how much better, as all the tickets have not been turned in.

The supper at the Golden Pheasant Cafe will be held on Friday at 6.30 p.m.

Scout Notes Of Interest

With 81,000 Scouts, Canada is the fifth largest Boy Scouting country in the world.

A 13-year-old Guernsey Sea Scout was awarded a Gilt Cross for saving an 80-year-old man from drowning in the sea at the Island of Herm.

According to the latest census, the leading Boy Scout countries of the world in order of numbers are: United States, Great Britain, Poland, Siam, Canada, France, Hungary, Japan, Czechoslovakia and Sweden.

In carrying out a Scout project of education in sanitation a group of Indian Scouts selected a street leading from the main square of a village via the mosque to the home of the village head man, and set about cleaning it, dumping the dirt and refuse into pits dug by them. Other Scouts went about washing with borax lotion sores of children and dressing neglected wounds. Talks were given on the advantages of fresh air and exercise, the abuses of putting ornaments on small children and the value of vaccination against smallpox.

MANY PEOPLE PUT OFF MAKING THEIR WILL

UNTIL IT IS TOO LATE!

This means that the Estate has to be administered and causes a considerable amount of expense which could easily be avoided, and also a considerable amount of inconvenience to the beneficiaries, especially if some of them are under age.

If the full significance of the inconvenience, hardship and expense caused to beneficiaries was fully realized we believe that everyone would take the precaution of making a Will. From our experience of more than a quarter of a century we have seen some of the hardship which this has entailed.

We suggest that you consult your solicitor or this Company with regard to making your Will.

This Company has been specially incorporated to act as Executors of Estates, and your lawyer or ourselves will explain to you the value of a corporate Trustee. We will be glad to discuss your Will with you at any time.

ASK US FOR PROOF that Goodyears give more mileage!

We have that proof right at our finger tips. We don't ask you to take our say-so about Goodyear tires, or the word of some unknown users who may live far away in another town. We show you authentic "footprints" of Goodyear tires on cars owned by motorists in your own locality—persons you know of, or even know personally. These "footprints" show clearly the condition of the tire when the imprint was made. The tire mileage is recorded in each case. See for yourself how Goodyears retain their safe, non-skid traction even after many thousands of miles of hard use. Drop in any day and see this and 2 other proofs of Goodyear superiority. They'll show you why More People Ride on Goodyear Tires Than on Any Other Kind!

GRAND FORKS WILL HAVE LIGHT CROP

Some Varieties Of Apples And Small Fruits Suffered Damage Last Year

Grand Forks
As reported May 12th: The winter of 1935-36 was one of the most severe winters ever experienced in this district, with a late, cold spring. This, taken with the early killing frost of October 31st last year, has caused considerable damage to small fruits such as strawberries and raspberries, and considerable quantities of new plants and canes have had to be set out this spring. There was also some damage to fruit trees such as top-grafted Delicious, Rome Beauty and pears. A small percentage of trees were killed, but a considerable percentage of fruit buds injured. Since the 1935 fruit crop was a heavy one in this district, the indications are for a light crop this year.

The late, cold spring held up spring work for a month and sending of early crops and planting of other crops were later than usual. Winter wheats were more or less injured during the winter and spring, and many fields had to be re-seeded to spring cereals.

Planting of early vegetables is completed and planting of late vegetable crops such as Nettle Gem potatoes is now under way. Indications are that there will not be a heavy acreage of potatoes or onions planted this season, especially early potatoes.

The marketing of the asparagus crop has been under way for some time, with prices uncertain owing to early importations from the United States. Moisture conditions are excellent, with prospects of good crops this season, except tree fruits.

Greston
As reported May 12th: The winter of 1935-36 will be long remembered by local residents as one of extremes, as the season was ushered in with an early blizzard with very low temperatures at the end of October before the late winter varieties of apples were all picked. Then again, after a couple of mild months, February followed with very low temperatures and continued so for three weeks without a break.

The early blizzard severely hurt late winter varieties of bearing trees on which the fruit was not picked and anywhere in the orchards where irrigation had been continued late, or where the soil was cultivated up until the end of the growing season, such as garden patches or where trucking was carried on between the rows of young fruit trees.

The snow covering was light, and the frost went down into the soil, so this spring the valley lost most of its winter moisture by the melting snows running off all slopes on the surface.

Spring growth started a little late, but came away without a break in the weather so that the soil soon warmed up, but growth was slow.

The early blossoming period made a much better showing than was expected. Cherry orchards look very promising, but the leaf growth is backward and sparse, confined chiefly to the tips of the young wood. Early apples are good, and there is an excellent showing of bloom. Even pears present a gay appearance with the exception of Bartlett, where the bloom is confined to the ends of the limbs on young wood.

Late varieties of apples are in the pink stage, but this is their "off" year. The bloom can be expected to be light, especially throughout the older spur system.

In stone fruits only the Japanese or tender varieties show injury; hardy varieties promise well.

Soft fruits suffered severely, especially Cuthbert raspberries, as the canes as well as the buds were killed. Hardy varieties were slow in starting, but are making better growth at present. Strawberries are hurt in some situations, as heaving of the heavy soils injured the roots more or less. A few patches have been ploughed up, while others promise very well. The plants were very lean to start growing, but have improved greatly, due to the continued warm weather. The crop will be late, and it is expected that shipping will begin towards the latter part of June. The crop should be about 70% of that of last year.

A good rain would be a blessing, as the south winds keep drying out the surface of the soil, but seeding operations are going ahead in full swing on the flats, and early seeds in the gardens have already made their appearance.

FREE! BOOK on BASEBALL!

Every boy and baseball fan will want this up-to-date book, "Baseball—And How to Play It", by Frank J. (Shag) Shaughnessy, Manager of the pennant-winning Montreal Royals. Pitching—all the fine points of the game are clearly explained and illustrated. Here's how to get it. Simply send in to the address below a "CROWN BRAND" or "LLY WHISKY" Corn Syrup label with your name and address and the words "Baseball Book" plainly written on the back—and your copy will be mailed to you right away.

What Physical Education Aims At For Kelowna

RUTLAND LOSES TO KELOWNA IN LEAGUE GAME

Both Teams Play Rather Ragged Ball And Make Unusual Number Of Errors

Playing their third game in the Southern Okanagan League on Sunday, May 24th, the Rutland nine lost to a visiting Kelowna team by 8 runs to 5. This game was originally scheduled to be the opening one of the season but was postponed on account of rain. The locals have now lost two games and won one.

Next Sunday they play at Kelowna and hope to reverse the result of this Sunday's game. Both teams played ragged ball in the opening frames of the game, third base being the scene of a lot of errors on both sides. One disastrous inning lost the game for Rutland. With Rutland leading 5 to 3 in the fifth inning the Kelowna batters started to hit the deliveries of Frank Wostradowski. Two runs came across to tie the score and then with the bases loaded, M. Leier laid down a neat bunt that set the locals scrambling for the ball. A series of wild throws followed and three more runs crossed the plate before the dust cleared. Back took over the mound duties then and retrieved himself somewhat for his poor third base exhibition by striking out the next two batters to retire the side, and throughout the rest of the game held the Kelowna team to one lone hit. Both teams played good ball after the fifth, and nothing at all in the nature of a batting rally developed.

The game as a whole, however, was not a high class exhibition and both teams can play much better ball than was shown Sunday. But there were plenty of thrills for the spectators and the game was never dull at any time. It was tough for the boys to lose this match on their own field when leading in the first half of the game, but the season is young yet and they hope to improve their position as the season goes on.

Kelowna appears to have a good heavy pitcher in Moebes, and he had the Rutland boys biting hard on his drop ball. The pitchers' record for the game showed that he allowed nine hits, walked two men, and struck out nine. For Rutland, Frank Wostradowski allowed seven hits, walked none, but hit two batters, and struck out six men in four and one-third innings, while Paul Bach allowed but one hit, walked none and struck out six batters in his four and two-thirds innings on the mound.

The Rutland line-up for the game was as follows: A. Kitsch, 1b; R. Kitch, 2b; A. Holisky, ss; H. Wostradowski, lf; T. Brinkman, cf; J. Holisky, p; Welter, rf; F. Bach, 3b; P. Wostradowski, c. 3b.

The local Scout Troop held a very enjoyable dance in Gray's packing house on Friday, May 22nd. The affair was put on to raise funds for the summer camp, and the sum of \$12.00 was raised for this purpose. Mrs. C. H. Bond kindly lent her piano for the evening. The boys wish to thank all those who helped, especially the musicians. A raffle was held, with a box of chocolates as first prize and a box of home made candy as second prize.

Denis Reid was the first prize winner and Mr. F. L. Irwin, second. The hall was decorated in the troop colours, orange and blue.

Mrs. A. S. Mills returned last week from England, where she had been holidaying.

Mr. A. W. Gray returned on Saturday last from Vancouver, where he had been stationed for the past four months.

Mrs. W. H. Ford left on Monday last via C. P. R. for Sarnia, Ont., where she will spend a six weeks' holiday visiting friends and relations.

Mrs. T. G. S. Chambers, of the Ceylon Tea Bureau, and formerly a resident of Rutland, gave a most interesting lecture on Ceylon to the school children on Tuesday, May 26th. The talk was illustrated by moving pictures of scenes in tea plantations and in native villages of Ceylon. Mrs. Chambers also took the opportunity to attend a meeting of the local Guides company, of which she was for a considerable time the captain.

The Junior Mission Circle met at the home of Mrs. A. N. Humphreys on Tuesday afternoon last. Plans were made to entertain the Kelowna branch at the next meeting, which is to be held some time in June.

Mrs. Maurice Jensen left last week for a short visit to Vancouver.

At a meeting of Rutland growers held recently in the Community Hall, the choice of delegate to the Tree Fruit Board nominating convention fell upon the President of the B.C.F. G.A., Mr. A. K. Loyd.

Mr. Earl Hardie left on Wednesday by car for Vancouver. He was accompanied by Mr. and Mrs. F. L. Fitzpatrick, who will continue on to Victoria for a brief visit. The entire party expect to return on Sunday next. They will make the journey down via the Fraser Canyon, returning by the U.S. route.

Rutland has an attack of "baseballitis" this season that has approached the stages of an epidemic. No less than six different teams are in existence or in the process of being organized. In addition to their team in the Central League, the Adanacs are this year sponsoring the Rutland entry in the Valley League and have organized a junior team and entered it in the Junior League. The rival Maroon Club has now started a "Pee Wee" team of boys of 13 and under in addition to their Central League and Junior League teams of last season. This new team is reported to be entered in a league embracing teams from Kelowna, Peachland and other valley points.

The first local game of the Central League season was played on the new baseball diamond near the Community Hall on Thursday evening, May 21st, between the local Adanacs and the Kelowna Red Sox. The visiting team took a whitewashing to the tune of a 5-0 score. Henry Wostradowski made his bow as a full game hurler in the league by striking out no less than 16 of the opposing batters in the seven innings played and allowing only two hits. Moebes, in the box for the Red Sox, was hit freely, and retired eventually in favour of Boklege.

The next Central League game is on Thursday, May 28th, between the two local entries, the Adanacs and Maroons.

The Dog—His Care And Training

A series of articles specially written for The Kelowna Courier by C. A. Thomas

FEEDING

The proper feeding habits are extremely important from the time you take charge of your pup. The future health of the dog really depends upon the feeding of the pup from birth to the time he reaches a year old. It is in this period that the dog's teeth, bones, etc., are formed and, if he is supplied with good strong white teeth and strong sturdy bones, then you may rest assured your dog has a good start in life. Feed a dog properly and keep him free from disease for the first year of his life and, barring accidents, your dog will live a long and healthful life and will reward your care with his appearance and carriage. Of course care must be exercised in the feeding of your doggy friend all of his life, but the first year extra precautions must be taken.

As in the care of babies, the first rule is cleanliness. All the puppy's dishes should be thoroughly cleaned after each feeding. Never allow any food to remain in the dish from meal to meal; in fact as soon as the pup turns away from his dish lift it and do not allow him anything more to eat until his next feeding time. This will encourage him to clean up his plate and will not make him a fussy feeder. Fresh drinking water must be placed in easy access every day. Without an ample supply of water at all times your pup cannot be healthy. It is desirable to put three or four teaspoonfuls of lime water in each bowl of drinking water, as this aids in building strong teeth and bone. Some people place a piece of rock sulphur in a dog's water. While this has no injurious effect, it has no good effect either, because rock sulphur is absolutely insoluble in water and so cannot be taken into the dog's system in this way. The lime water is most beneficial and has a tendency to discourage the growth of worms. In order to obtain the best results from the use of lime water in the winter months, it is advisable to give the pup a teaspoonful of cod liver oil every day, being careful not to let the oil make the puppy's bowels too loose. In the summer the pup will play around in the sunshine and so the oil is not necessary. The cod liver oil, besides making the assimilation of lime easy, will

LIME NOT A FERTILIZER BUT AN AMENDER OF SOIL

Abundance Of It Is Harmful To Some Plants
Strictly speaking, lime in any of its forms is not a fertilizer, but rather belongs to the class of soil amenders. It does not contain any of the three essential plant foods: nitrogen, phosphoric acid and potash. Its main element is calcium, which is required in relatively small quantities for plant growth and most soils contain sufficient of it naturally.
An abundance of lime is harmful to grass, bulbs such as gladioli, potatoes, and numerous other plants which thrive best in an acid or mildly acid soil condition. On the other hand, it is

have a very beneficial effect on the dog's coat. As often as the pup will take it an egg beaten into milk will keep him in first-class condition. Very young pups must have the milk given them diluted and warmed slightly. Young pups require feeding three or four times a day. From four to ten months, twice a day is sufficient and from then on once a day, preferably in the evening.
In mixing feed for a dog or pup, there is one cardinal rule which must be observed rigidly. If your pup's health is not to suffer, and that is never give the dog any sloppy food such as gruel, mash, or any semi-liquid or semi-solid. When mixing gravy, etc., with meal or bread, be sure to mix it as dry as possible so that the dog will have to chew it to some extent. Clear broth is all right in small quantities and not too often. Milk, of course, is a natural food and is excellent but should not be mixed with porridge and other soft foods. Too much feeding of soft food to your pet will result in intestinal trouble at an early age and spoil his teeth. A dog's natural food is rough and hard and the nearer you keep to this type of food the healthier your dog will be. Never allow your dog any pastry or cake or any other rich greasy food fried or baked, as this is not natural and injurious to his health. Ice cream or any other extremely cold food is also banned for dog food. Should you wish to treat your dog once in awhile, just allow a small portion of ice cream to melt in a dish and then let him lap it up. This ban also applies to extremely hot foods, although the dog will usually refuse anything hot, but, in the case of hot meats, he might eat it before it is cool enough. Feeding of scraps from the table should be absolutely forbidden. Next week further items of interest to you about feeding your dog will be told.

Question Department

Questions relating to the selection and care of dogs, other than veterinary treatment, may be sent to The Courier, and will be answered in this department from week to week while the series of articles is being published.

helpful to the legumes, such as the clovers, peas including sweet peas, asparagus and some other crops which soil acidity harms. The main use of lime, therefore, is in correcting soil acidity and improving the physical condition of heavy clay soils. It does the latter by its action on the substances that cause the clays to become sticky and bake hard. Lime should therefore be used rather as a soil amender and not primarily as a fertilizer.

THE MORNING AFTER

Swell Souze—Where was I last night, Thompson?
Valet—I couldn't say, sir, but your bank's manager has rung up to ask if it's all right to pay out a cheque of yours written on your dress collar.

PROVINCIAL PLAN FOR CLASSES IN PHYSICAL TRAINING

Arrangements Are Being Made For Establishment Of Centre In Kelowna In Fall

A programme of recreational and physical education will be made available to all interested in Kelowna this fall according to information received from Mr. C. J. Frederickson, Principal of the Elementary and Junior High Schools.

This work, which is already being carried on in most of the Coast cities, has been made possible for a number of interior centres through a special grant to the Department of Education made at the last session of the Legislature. While the work will be under the auspices of the Department of Education and is put on primarily to benefit young people, it is not a school activity, although the teaching staff will be interested in the work and will co-operate in every possible way.

The object of the classes will be to interest young people in co-operative activity, to give them a good physical training, teach them various games and sports and to give them instruction in massed physical movements, wrestling, boxing, life saving, etc.

The work of establishing and maintaining these training centres is under the Department of Education, with Mr. Ian Eisenhardt as Provincial Director. Mr. Eisenhardt is expected to visit this city in September, shortly after the resumption of school, when complete arrangements will be made.

There may, in all probability, be a permanent instructor here, possibly a local man if one with the necessary qualifications can be secured, while, in addition, there will be travelling supervisors, who will visit the centres at regular intervals.

In 1935-36 there were 24 of these centres, all at Coast points, 17 of them being in the two cities of Vancouver and Victoria. An indication of the increasing popularity of the programme may be gathered from the fact that in 1934-35, the first season for the plan, a total attendance of 2,768 men and women was recorded, while in 1935-36 the attendance had jumped to 4,535.

The city of Prince Rupert, with a population comparable to that of Kelowna, mustered an enrollment of 227 men and 319 women, a total of 546.

OKANAGAN MISSION

Miss Lois Bell, who has been training as a nurse at Oxford for the past three years, arrived home on Tuesday for a few months' holiday. Miss Zoe Browne-Clayton and Miss Primrose Walker are giving tea parties in her honour on Wednesday and Friday of this week.

The Vernon Drag Hounds will meet at 4.30 p.m. on Sunday, May 31st, on the Glenmore road, at the Golf Club corner. Owing to the hot weather, hounds will only hunt one day.

Mr. and Mrs. Mat Hassen, of Armstrong, were visitors to the Mission on Sunday.

Bill Ashbury motored to the coast for the week-end.

Mrs. Temple Cornwall, of Kamloops, has been staying a few days at the home of Mr. and Mrs. W. D. Walker.

Miss Alea Ivens returned home from Trail last week.

Mr. Painter had good luck fishing the other evening, when he landed a ten-pounder, eight-pounder and seven and a half pounder. Mr. Clarence also had a big catch during the week.

Mrs. St. George Baldwin was hostess at a tea party at her home last Wednesday, when she entertained over a dozen ladies who had been on a hospital blossom drive.

Miss Barbara Middlemass left on Saturday for the Coast, where she is spending a week at the home of Mr. and Mrs. V. Chon, of Vancouver.

Miss Betty Dike and Miss Joyce Francis spent the week-end at the Mission.

Mrs. B. T. Haverfield and Miss Joan McConnell leave today for the Coast, where they will visit Miss Kitty Haverfield at Strathcona Lodge Hotel.

Mrs. Fuller left by C.P.R. on Saturday on her way to England. She is stopping off at Toronto to visit her daughter, Mrs. Fergusson, and will meet her sister, Mrs. Chamberlain, at New York. She and her sister sail on the "Berengaria" on May 28th.

THE RIFLE

G. C. Rose Wins Spoon At Second Handicap Shoot

The opportunity offered of a two-day holiday through observance of Empire Day falling on Monday cut the attendance on Sunday at the second handicap spoon shoot on the Glenmore range to ten. The distances fired over were 200 and 500 yards. Conditions were excellent at the shorter range, with bright and steady light, but at 500 yards heat haze bothered to a considerable extent.

G. N. Kennedy led the scoring at 200 yards with a steady 31, none of the other riflemen reaching the 30 mark. At 500 yards, G. C. Rose headed the procession with 33, consisting of snipers for his first and second shots and a string of five bulls. This score won for him the spoon. P. J. Noonan registered 30.

Mosquitoes did not bother as much as on the previous Sunday, and it is hoped that the pests will soon disappear as the odd pools here and there dry up under the summer sun.

Individual Aggregate

Seven shots on score at 200 and 500 yards and total: G. C. Rose, 27, 33—60; G. N. Kennedy, 31, 28—59; H. H. McCall, 29, 29—58; P. J. Noonan, 25, 30—55; D. E. McLennan, 26, 27—53; D. McMillan, 27, 23—50; F. Vanidour, 22, 26—48; A. N. Peterman, 22, 23—45; J. Campbell, 20, 10—30; C. McCall, 14, 14—28.

Spoon Handicap

G. C. Rose (winner), 27 plus 3, 33 plus 3—66; H. H. McCall, 29 plus 4, 29 plus 1—63 and D. E. McLennan, 26 plus 5, 27 plus 5—63, equal; P. J. Noonan, 25 plus 4, 30 plus 3—62; D. McMillan, 27 plus 5, 23 plus 5—60; G. N. Kennedy, 31 scratch, 28 scratch—59; F. Vanidour, 22 plus 5, 26 plus 5—58; A. N. Peterman, 22 plus 5, 23 plus 5—55.

Spoon Shoot Next Sunday

The distances to be shot over at the spoon handicap shoot next Sunday will be 200 and 600 yards. As the season progresses and members have learned the proper adjustment of sights for the various distances, there will be less firing at 200 yards and more at 600, which is the all-important and decisive range in team shooting, and at which it is essential to have much more practice if Kelowna is to hold its own in competition with other rifle associations.

Problems Met In Handling Fruit Discussed By Managers And Local Packing House Foremen

 Subjects Of Great Importance And Value To The Industry
Threshed Out At Series Of Meetings Attended
By Co-operatives And Independents Alike

Marking the first time that managers and foremen of independent and co-operative packing houses throughout the Okanagan and Kootenay districts met together to discuss their common problems, nine meetings were held throughout the season to get a clearer perception of what steps were necessary to improve packing house conditions.

The Tree Fruit Board report on these meetings, which has recently been issued, records that unusual interest has been shown in the questions up for discussion and practically 100 per cent attendance of foremen and manager was experienced.

In attendance at the meetings was a representative of the B.C.F.G.A. to get the grower point of view, members of the staff of the Summerland Experimental Station and Mr. B. M. Whyte, District Fruit Inspector. Mr. George Clingan, Assistant in Fruit Transportation, from Ottawa, was present at the meetings in the south end of the valley. Government Inspectors attended each meeting in their own districts. There were forty present at the Kelowna meeting.

Many and varied questions were brought up for consideration and the general opinion expressed indicates that a considerable amount of good was accomplished for the industry through the comparing of ideas and suggestions.

The report, which dealt with the meetings, in general, at some length, read, in part, as subjoined.

At these meetings we endeavored to get those present to talk freely, stating their views, etc., on the different subjects in the agenda. We felt, however, that quite a few who attended the meetings had a feeling at first that we were going to bring up personal questions about the different houses. The meetings, however, were called for a general discussion on improvement of our packing house practices throughout the valley. Taking this into consideration, after all the meetings were held, we were more than convinced that the packing house managers and foremen were all aware of many improvements that were necessary.

One good point that was brought out was that there were many points and problems that could be discussed together and worked out to the mutual benefit of all. This was the first time that independent and cooperative packing house managers and foremen had met together and discussed their different problems.

Too Much Speed Costly To Grower
It was admitted at all the meetings that there was too much speed and that, instead of saving the grower money, it was really costing the grower money.

Rushing of graders, which forces packers to greater speed, has a tendency to cause poor sizing, poor wrapping and poor packs generally. This in turn is the main reason for so much repacking in the spring and is responsible for loss to the growers of thousands of dollars.

It was pointed out that during the previous years some houses had practically no repacking, while others repacked nearly everything, and most of the repacking was caused by careless packing in the first place.

Wrapping.—It was admitted that quite a lot of houses lacked supervision in this connection, while other houses were very careful. It was agreed by all that proper wraps protected the apple against bruising, and in the case of oil wraps it was very necessary to make sure the apple was well wrapped or there was no advantage in using oil wraps. They recommended the use of one size larger paper on oil wraps. In Kelowna, it was pointed out that McIntosh kept much better in oil wraps.

Stems.—In practically all cases the packing house men admitted that there was very little, if any, supervision in connection with the placing of stems the correct way. Some made the excuse that the packers were not paid enough to make them careful. Others felt that something should be done and that with very little trouble, as it was just a matter of making the packers do it right. Some thought it would slow up the packing, but the majority thought that, if the packers were taught right in the first place, it wouldn't make any difference in speed.

In Vernon, Mr. Hill explained that they were having considerable trouble with bruising and he thought it was caused by stems being placed every way. They checked up on this and found that 90% of the bruising was eliminated. They now have no bruising to speak of and they have no trouble with their packers.

Another house in Vernon is also careful in this connection and has no difficulty with packers, as it is just a matter of checking up every once in a while.

Another cause of puncturing by stems is rough handling of fruit on trucks from orchards and in the warehouse.

At the Vernon meeting, Mr. Art Henderson, of the Inspection Staff at Kelowna, gave some interesting figures on some repacking and inspection of McIntosh out of cold storage. He showed that a lot of our repacking was caused by carelessness in packing the box in the first place.

At one meeting it was explained that warehousemen do a lot of damage to the packed fruit and cause bruising when they truck a stack of fruit into a row and then let it bang up against fruit already in the row, rather than holding on to the top of stack and letting it down carefully.

Sizing.—This subject was well discussed at all meetings and was taken up under many headings.

One of the causes was letting packers clean up all the sizes into one box out of the bin at the head of the grader section. It was suggested that good packers should be put on this bin and that it would pay to give them extra to pack same with care. Some foremen thought this would not be practical.

The main reason was that they did not want to bother and did not care, even though this same bin was the cause of most of the repacking and cost the growers thousands of dollars.

Another reason was from running the graders too fast. The general average should be about 160 cups per minute on a new grader and 140 on an old one. Some packing houses run their graders slower and figure that it pays.

It was agreed that in the rush "grader packers" were not good at sizing and, unless the packing foreman watched the graders, poor sizing was the result.

It was felt in the general discussion that packing schools were very good, but unless they were followed up with good supervision later, when they started to work, all the good was lost.

It was agreed that generally there was too much speed with the idea in mind of saving the odd fraction of a cent on packing charges. It was admitted by many that in lots of cases this same saving cost the poor grower five cents for one cent saved. It takes a lot of cents to pay for the repacking that is done every year.

Some thought it would pay to allow more for packing and make the packers put up a good pack. They felt that, under the present wage scale, they had to let the packers work as fast as possible.

Repacking.—The main reasons for repacking were generally discussed under the previous headings of carelessness in wrapping, placing of stems and sizing of apples.

Other reasons were:—

1. Fruit not being put in storage early enough.

2. Off condition of fruit, which should never be stored, but shipped immediately. A packing house manager in watching this item alone could save thousands of dollars.

3. Apples of light crop trees, certain soils, picked when wet during rainy weather, picked by careless growers, etc., are not good for storage.

4. Apples held loose for a long period in common storage should not be stored afterwards for any length of time.

5. Apples held loose in cold storage should be shipped as soon as possible after packing.

The idea of having Inspectors make out monthly reports showing the cause of repacking was thought to be a good idea. In this way it was felt that we would know when carelessness was the cause and same could be checked.

Tier Sheets.—It was pointed out that when tier sheets were used you saved one size of apples to the box, which would pay for the extra cost. However, the cost amounts to very little, considering the fruit arrives in better condition.

Those who used the tier sheets reported very good results and will use more for the coming season.

It was pointed out by the chairman that more care should be used in packing to make sure that packs were not broken. This had happened in one house and, of course, caused more bruising than if the tier sheets had not been used.

The use of corrugated board was felt to be a shipper's problem. Nearly all managers and foremen felt, however, that it paid to use them, and that it certainly did away with a lot of bruising and lid cuts.

Bulge.—Practically all thought that the crown pack was the best pack. Care must be taken, however, in same, and the pack must be built up from the bottom to get best results.

If a pack hasn't the right bulge, it should be sent back by the pressman. He can always tell if a pack is properly packed as soon as he starts to put the lid on.

The question of the press was discussed under this heading and several houses pointed out the advantage of putting extensions on the two bars so as to catch the cleat of the lid rather than to press one to two inches in on the lid.

They used mower blades for extensions and they proved very satisfactory. Some houses said this was not satisfactory and that it slowed up the work. Those who took the trouble to make the changes said they were quite satisfied and did not slow up the work. (They should know better than the man who was not interested enough to try.)

It was agreed at most meetings that it would be better to have less bulge on McIntosh apples, and that much greater care should be exercised with same.

Suitcases For Apples, etc.—It was felt at most meetings that it paid to tier the suitcases. It made a very attractive pack and saved bruising, etc. It also made it possible to get in weight without causing so much damage to the fruit.

One shipper in Penticton explained that the Prairie jobbers did not like the suitcase and would rather have the four-basket crate. He thought they were forcing a package on them that they did not like and that we would be better advised to stay with the four-basket, rather than use the cheaper container.

The question of green wrap peaches was discussed and some explained that it was being abused. It might be well for the Board to rule in this connection.

This idea was started by some shippers who put up all the ripier peaches in a green wrap and it was very satisfactory to the trade. They could buy so many of each and knew just what they were handling. Today some shippers are putting up all grades of ripeness in the green wrap, which is very misleading to the trade and is the cause of a lot of loss to the buyer.

Pears.—It was generally felt that our pear pack today is quite satisfactory to the trade. A few smaller shippers, however, do not take enough care, and do not put in enough weight.

Wraps could be improved and stems should all be put towards the packer when packing.

It is absolutely necessary to put up the high pack to compete with the U.S.A., especially on the export market.

Cold Storage.—The question of cold storage is more or less a shipper's problem. Fruit that is put in cold storage loose is more liable to bruise when packed, especially if left for a long period before packing.

Under this heading, most of the discussion was covered previously by "cause of repacking." Repacking has a lot to do with the way and time that fruit is placed in cold storage.

There was very little discussion on the operating of cold storages, and another year it would pay to discuss same. Questions that should be discussed include, causes of scald in storage fruit, air circulation, temperatures for different fruit and many other such questions.

Tiering of all fruit.—This was felt to be a shipper's problem. Some houses that had put up tiered packs in previous years were in favour of it. The majority who had not put it up before were against the tiered pack, as it would mean putting all fruit over the grader and would cause additional expense.

The majority said that, if fruit was going to be lidded, it should only be put up when required. The loss from bruising and decay would be heavy if same was packed ahead of time.

Inspection.—It was generally accepted that the inspection, as carried out today, was quite satisfactory and very few had any suggestions to offer.

It was pointed out that inspectors were quite willing to give information to the packing house foremen re individual packers, overgrading, rough

Famous Cruise Service!

IT'S a lifetime thrill . . . and a singular experience to step aboard a Canadian Pacific steamship, to meet her competent and genial officers and crew, to taste those famous meals, dance to the ship's orchestra—but when that ship is Alaska-bound on one of her popular summer cruises, it's a sure recipe for a grand and glorious vacation.

8½ Days, Passage, meals and berth (except at Skagway).

Ask the Ticket Agent

handling, etc. The truth was that this information was not always appreciated and naturally in such cases inspectors did not bother to give the information.

Several thought that a special inspector, or contact inspector, who checked all the inspectors, with the idea of more uniformity, would be a good idea.

Mr. Whyte explained that during the season the Government intended to send a representative from the Inspection Staff to the Prairies to check up on the deal from that end. This was considered by all to be a very good plan and one that would be a great help to the fruit industry. They intended to send out one or two men every year. The Chief Inspectors in each district would very likely be sent.

The question of moving inspectors from one house to another was not considered a good policy.

The Inspection Staff promised to check the rough handling of fruit during the season.

After discussion, they realized that nothing could be done about the Prairie Inspectors being put under the supervision of the Okanagan District Inspector. Some help would be effected during the coming season when the inspectors from the valley visited the Prairies.

They all agreed that the inspectors should report infractions of the Tree Fruit Board regulations to the head office of the Board at Kelowna.

CONSTIPATED* 25 YEARS, ALL-BRAN BROUGHT RELIEF

Delicious Cereal Corrected His Condition

Here is Mr. Johnson's letter: "I got a package (of Kellogg's ALL-BRAN), and before the package was gone I was very much better. "So I have been eating it for two or three weeks, and my constipation" has gone and I was constipated for 25 years or more. Hoping this may help some one to better health. I am a new friend to Kellogg's ALL-BRAN." — Mr. J. B. Johnson (address upon request).

Mr. Johnson's letter is one of many. Millions find Kellogg's ALL-BRAN corrects constipation satisfactorily. It supplies the "bulk" missing in the average meal.

The "bulk" in ALL-BRAN is mild and effective. It absorbs moisture, and gently exercises and cleanses the intestines. ALL-BRAN also supplies vitamin B and iron.

Isn't it more sensible to use this natural food instead of taking patent medicines? Just eat two tablespoons daily. If not relieved, see your doctor.

Use as a cereal, with milk or cream, or cook into muffins, breads, etc. It is sold by all grocers. Made by Kellogg in London, Ontario.

*Constipation due to insufficient "bulk" in meals.

Poor Stuff

At a social gathering a guest approached the host and said: "Excuse me asking, but what's in that bottle in the corner over there? Is it ink?" "No!" was the reply. "Whiskey! Why do you ask?" "Oh," said the other, "a man went there and filled his tumbler pen before he left."

Winners At Empire Day Track Meet

The following is a record of the events of the Empire Day track and field meet, when twenty events were run off before an enthusiastic audience.

Shot put, open: 1. R. Waters, Vancouver; 2. MacDonald, Penticton; 3. Norman Bowsher, Trail. Distance, 45 feet, 9 inches. New record. Waters gave an exhibition throw of 49 feet after the competition was finished.

60 yards dash, girls, open: 1. Joan Hurley, Penticton; 2. Joan McCall, Kelowna; 3. Hazel Smith, Penticton. Time, 7 and two-tenths seconds.

High jump, boys, 17 and under: 1. R. Boss, Armstrong; 2. C. Cowston, Penticton; 3. R. Scrim, Kelowna. Height, 5 feet 6 inches. New record.

75 yards dash, boys, 14 and under: 1. J. Taylor, Oyama; 2. D. Henderson, Kelowna; 3. B. Jemmes, Kelowna. Time, 9 and two-tenths seconds.

100 yards, girls, under 16: 1. Joan Hurley, Penticton; 2. Marion Todd, Kelowna; 3. H. Smith, Penticton. Time, 11 and eight-tenths seconds.

220 yards dash, men, open: 1. Rusty Martin, Kelowna; 2. A. Reid, Kelowna; 3. S. Townsend, Oyama. Time, 24 and two-tenths seconds.

Pole vault, men, open: 1. H. Leroy, Penticton; 2. Carl Tostenson, Kelowna; 3. Denis Scott, Height, 10 feet 9 inches.

880 yards, men, open: 1. G. McGinn, Kamloops; 2. J. Henderson, Kamloops; 3. L. Brock, Penticton. Time, 2 minutes.

100 yards dash boys, 17 and under: 1. C. Glass, Penticton; 2. H. Burks, Kelowna; 3. D. Reid, Rutland. Time, 10 and eight-tenths seconds.

100 yards, girls, under 16: 1. Joan Hurley, Penticton; 2. Marion Todd, Kelowna; 3. H. Smith, Penticton. Time, 11 and eight-tenths seconds.

220 yards dash, men, open: 1. Rusty Martin, Kelowna; 2. A. Reid, Kelowna; 3. S. Townsend, Oyama. Time, 24 and two-tenths seconds.

Pole vault, men, open: 1. H. Leroy, Penticton; 2. Carl Tostenson, Kelowna; 3. Denis Scott, Height, 10 feet 9 inches.

880 yards, men, open: 1. G. McGinn, Kamloops; 2. J. Henderson, Kamloops; 3. L. Brock, Penticton. Time, 2 minutes.

100 yards dash boys, 17 and under: 1. C. Glass, Penticton; 2. H. Burks, Kelowna; 3. D. Reid, Rutland. Time, 10 and eight-tenths seconds.

100 yards, girls, under 16: 1. Joan Hurley, Penticton; 2. Marion Todd, Kelowna; 3. H. Smith, Penticton. Time, 11 and eight-tenths seconds.

220 yards dash, men, open: 1. Rusty Martin, Kelowna; 2. A. Reid, Kelowna; 3. S. Townsend, Oyama. Time, 24 and two-tenths seconds.

Pole vault, men, open: 1. H. Leroy, Penticton; 2. Carl Tostenson, Kelowna; 3. Denis Scott, Height, 10 feet 9 inches.

880 yards, men, open: 1. G. McGinn, Kamloops; 2. J. Henderson, Kamloops; 3. L. Brock, Penticton. Time, 2 minutes.

100 yards dash boys, 17 and under: 1. C. Glass, Penticton; 2. H. Burks, Kelowna; 3. D. Reid, Rutland. Time, 10 and eight-tenths seconds.

100 yards, girls, under 16: 1. Joan Hurley, Penticton; 2. Marion Todd, Kelowna; 3. H. Smith, Penticton. Time, 11 and eight-tenths seconds.

220 yards dash, men, open: 1. Rusty Martin, Kelowna; 2. A. Reid, Kelowna; 3. S. Townsend, Oyama. Time, 24 and two-tenths seconds.

EAST KELOWNA ATHLETIC CLUB FINAL DISPLAY

Much Improved Form Shown In Wrestling Bouts As Compared With Previous Event

The East Kelowna Athletic Club, which operated this year for the first time, closed a very successful season when they presented a second evening of wrestling and boxing at the Community Hall last Friday night. On a previous occasion, wrestlers from Kelowna aided the local boys, but this time all the talent displayed came from the East Kelowna club. The boys went seriously to work about the business of producing a show and aided materially by a roped and raised ring, were highly successful in their undertaking. In wrestling, especially, a decidedly improved form was displayed over that seen in their previous presentations, and the boys showed clearly the effects of watching bouts staged by the Kelowna club.

The intervals between the different bouts were acceptably filled with exhibitions of tumbling, with instructors W. Wilcox and J. Zauchner as the performers.

The first bout of the evening brought together Charlie Robertson and Frank Christie, who traded punches with reckless abandon and so enjoyed themselves that, at the expiration of time, neither bothered to wait for the decision.

The second event saw John "Iron Man" Paterson matched with Bill "Boncrusher" Robertson. The result, which was a draw, with a fall apiece, was very interesting and the boys, for the boys were out to show that they had learned something in the grappling line. Both wrestlers showed a vast improvement in the application of holds, and they put up quite a convincing display.

The next bout featured the appearance of instructors Bill Wilcox and Art Clarke and started as the time-worn "boxer" vs. wrestler encounter. Only a few moments of the opening round had passed, however, before the boxer had discarded his gloves and adopted wrestling tactics. A touch of grim reality entered the bout in the second round, when Clarke, aiming a vicious kick in the general direction of his opponent, actually connected.

The final bout featured the two Evans brothers, Ronnie and John, who gave a commendable account of themselves. These boys were more vocal in their wrestling than the others, and Ronnie, especially, got rid of some very fine efforts. The bout was directed and, and rightly so, for John was away ahead when it came to making faces.

The evening closed with refreshments, in the form of ice-cream provided by the club, and a dance for all who wished to remain.

The Athletic Club is to be congratulated on the completion of its first season, in every way very successful. The instructors wish to take this opportunity of thanking all the members for their whole-hearted co-operation, without which this success could not have been realized.

Anyone passing the Community Hall last Thursday evening would have been a witness to a very interesting sight, for, around open campfires, the members of the Boy Scouts were cooking a meal. Whether this was in the way of training for the Scout camp or not was not ascertained, but the boys seemed to be thoroughly enjoying themselves. The success of their venture may be judged by the fact that all reported in good condition the following day.

Mr. T. R. Hall, Provincial Inspector of Schools, visited the Senior room of the school on Thursday last, when tests were administered to pupils who are in Grade 8. This year, for the first time, pupils from this school who have attained a satisfactory standing will be promoted to High School on recommendation.

Members of the East Kelowna Badminton Club and their friends met at the Community Hall on Wednesday, May 20th, where they enjoyed an evening of fun. The entertainment took the form of a mock track meet, with discus of cardboard, and 16 lb. shot, a much-used badminton shuttle. After three hours of hilarious fun, the party sat down to supper in the smaller room in the hall, and parting words were a mixture of ejaculations of pleasure over the evening and groans at the near approach of the early hours of morning.

Early rising has been the order of the day, as orchardists have been hard put to it to find opportunity to get a calyx spray on trees. The weather has been none too kind, as a stiff breeze has been visiting the benches of late, arriving each morning about an hour before noon, and making it impossible to spray. Many growers, in desperation after day after day of such weather conditions, have chosen to rise with the birds, and 4:30 a.m. has been a common hour for starting the day's work.

Miss Grace Porter has been spending the past week in Joe Rich Valley, where she has been the guest of Mr. and Mrs. Philpott.

Col. W. Moodie left on Thursday for Vancouver, where he will meet his sister from Montreal.

The past week has seen much activity on the part of East Kelowna softball teams, both boys and girls having had two league encounters. On Tuesday, the 19th, the girls met the Senior High team and won a closely contested game by a score of 8-5, while the boys took their first defeat of the season from Toc H, coming out on the day, both teams went into action again, the girls trouncing the Basketball Club team in a one-sided game.

PERFECT WEATHER ADDS TO SUCCESS OF EMPIRE DAY MEET

(Continued from Page 1)

Concluding the share of the schools in the programme were two more folk dances by the senior girls, which were just as well carried out as the preceding ones, and were greeted with enthusiastic applause.

In the afternoon, the crowd saw a new Canadian record established for the discus and two new marks set for Kelowna Track Meet events. Bob Waters, of Vancouver, beat the local mark for shot put and made a new native Canadian record of 130 ft. 3 1/2 inches for the discus. R. Boss, of Armstrong, was the other record breaker, in the boys under 17 high jump, cracking the standing record of 5 feet, 5 inches by an inch.

The boxing game in the afternoon, between the Home Oil team and the Squamish Indians, saw the redmen bang the Home Oil scalp on their belt 15-13, only after a lot of mixed fighting that gave the crowd a taste of the possibilities of this game which is arousing so much interest in the interior.

Howard Ryan Is Champion

Howard "Iron Man" Ryan was top man at the close of the day, winning the Grand Aggregate Cup, donated by the Kelowna Rotary Club, with a total of twelve points. Ryan won two of the big races of the afternoon, the spectacular 100 yards men's open dash and the 440 yards men's open, and helped bring the Kelowna team to victory in the 880 yards relay. Although obviously tired to the limit of his endurance, "Iron Man" entered in the mile, but after gaining ground steadily to stand in second place at the end of the third lap, he dropped out as he passed the judges' stand.

Close behind Ryan in the running for the Grand Aggregate Cup was "Rusty" Martin, who made a flashy win in the 220 yards open and was right at Ryan's heels when he broke the tape in the 100 yards dash.

The mile, men's open, was taken easily by George McGinn, of Kamloops, who also won the 880 men's open with the same effortless ease. In the mile, grueling test of endurance, McGinn took the lead from the first and steadily increased it all the way around the track until he was well over a hundred yards ahead of the third man when he broke the tape. Lengthening his stride as he pounded up the home stretch, McGinn finished apparently untired in 4 minutes, 45 and 2/10 seconds.

Joan Hurley, Penticton's girl flash, won three events, the 60 yards dash for girls open, the 100 yard dash for girls under 16 and the 100 yards girls, open.

The girl's open relay, always a popular race, was won by Kelowna with Penticton as the only competitor. Vera Fustling, of the Kelowna team, lifted the victory for her running mates and created a lead that was never endangered. The Kelowna line-up was as follows: Vera Fustling, Joan McCall, Dot Anderson and Marion Todd.

Bob Hayman, who won the Inter-scholastic high jump event at Vernon, came through to win again on his home ground with a jump of 5 feet, 7 inches, not as high as his previous Vernon record but still a long way off the ground.

Two of the boys, 17 and under, events were won handsily by Cecil Glass, of Penticton, who steamed in ahead of the field to annex the 220 yards and the 100 yards dash.

A complete list of the events, winners, places and times will be found in another portion of the Courier.

WESTBANK

The W. A. of St. George's Church met at the home of Mrs. Frank Browne on Thursday, with a good attendance. At the close of the meeting on behalf of the W.A., Mrs. Acheson presented Mrs. Frank Browne with a linen table cloth set. Mrs. Browne was the first President of St. George's Women's Auxiliary and continued her good work for ten years. Mrs. Frank Browne will be greatly missed. Besides being President of St. George's W.A., she was the treasurer of the Women's Institute and has been one of the most faithful and energetic members of the Institute, doing her work in a quiet, unobtrusive but efficient way, and the heartfelt good wishes of the community will follow Mrs. Browne to her new sphere of work.

The Rev. Frank Browne was ordained at Penticton on Sunday and with his family will leave for his ministry at New Denver at the end of the month.

Mr. J. deC. Paynter left on Tuesday for the Forestry office at Vernon.

and piling up a 29-9 score before the affair ended. As the score would indicate, the East Kelowna girls hit the ball hard, far and often. At the same time, the local boys hooked up in what turned out to be a real battle with Glenmore. Both teams played tight ball, and the contest, which might have been anyone's until the last man went out, went to Glenmore, with a 3-2 count. It was a good game to win and just as tough a one to lose.

Mr. J. Farquhar, of Winnipeg, is a visitor in East Kelowna. He is at the home of his daughter, Mrs. W. Marshall.

Mr. S. Gregory, who was forced to submit to an operation for appendicitis, is reported as making satisfactory progress in hospital.

Elsie Bening, another East Kelownian who had an appendix removed, has made a splendid recovery and expects to return home from the Hospital on Sunday next.

On Tuesday, May 19th, a softball team arrived unexpectedly from Rutland School. Due to a misunderstanding,

ing, the local team was not prepared for their guests, but a team was hurriedly rounded up, rather than disappoint the girls from Rutland. East Kelowna's team was of necessity composed of boys as well as girls, and proved too strong for the lasses. All formality was dropped after the first inning, and the youngsters just had a good time with one another.

Mrs. M. V. Dale and Miss Ruth Dale, of West Summerland, were week-end visitors in East Kelowna. They were the guests of Mr. and Mrs. H. W. Daniel.

Tremendously keen interest was displayed among the boys of East Kelowna over the lacrosse game which featured the Empire Day celebration in Kelowna. The local school was the first in the Kelowna district to revive interest in the game, and many of the boys have become quite proficient in the three years they have played.

NEED TO WIDEN UTILITY SCOPE OF FARM CROPS

(Continued from page 1)

debt, in many cases, in order to provide fuel and repairs for their new motive power. Farm income dropped by billions of dollars during the prosperous years of 1928-30.

"At the close of the war millions of dollars were tied up in industrial plants that were no longer needed for the manufacture of war materials," stated Dr. Harris, "and industry, through force of circumstances, was forced to develop new uses for this idle machinery. The result of this was that a whole host of new materials and articles were turned out and found a market. Unfortunately the farmer has never, until the present time, been driven to the use of inventive genius for the introduction of new uses for his produce. It is becoming apparent now, however, that foreign markets are constantly decreasing and the volume of local human need is not great enough to consume the output of agriculture and that attention must be turned to industrial uses for farm produce."

Dr. Harris cited the case of Henry Ford as one who had caught the spirit of the times and had made extensive use of agricultural products in his automobile factories. Approximately 60,000 acres of production are consumed yearly in the Ford plant at the present time and this total is constantly increasing.

Dr. Harris gave an interesting outline of the work of a conference called together by Mr. Ford, composed of agriculturists, industrialists and scientists, who conferred as to how they could make best use of farm produce in modern manufacturing. As a result of this a great deal has been done and an extensive movement is under way in the United States at the present time to further this work.

The speaker stated he felt sure that a similar plan could be inaugurated in this part of Canada, with our large stocks of surplus oil fruit that has a considerable chemical content which could be made use of in the preparation of industrial alcohol for fuel. Another item of importance that would merit the closest investigation, according to Dr. Harris, is the soy bean, which appears to be particularly well adapted to growth in this valley. The products which can be derived from this humble vegetable are virtually unlimited.

In closing, Dr. Harris expressed the hope that an aggressive campaign for such a union of agriculture, industry and science will be undertaken in this province, and he pledged his active support to such an undertaking.

MINISTER OF AGRICULTURE OPTIMISTIC

(Continued from Page 1)

gress had already been made and that agriculture in this province was on a better footing than in the recent past. The immediate problem had been control of the marketing of agricultural produce and in this regard a great deal had been accomplished through the Marketing Act. He gave various instances of improvements that had been arrived at through the act and expressed the confident opinion that more would be accomplished during the present year, particularly on the coast, as the Oriental producers had given their support for the coming season. Other countries were following along the same lines of action, the speaker explained, and he cited the case of Australia, where the prices are set and the marketing absolutely controlled.

"If it is legal to pass minimum wage legislation and to govern labour completely, then I do not see why it is not legal to do the same in regard to agricultural products," stated the speaker.

GOOD REPORTS ON FISHING IN ALL WATERS

Kettle River And All Other Streams To Open On June 1st For Season

With the Kettle River and all its tributaries and all the local creeks and streams of importance, from a fisherman's point of view, opening up on June 1st, with good fishing in prospect, and with promises of a splendid week-end over the holiday that saw limit catches from nearly every recommended lake, local fishermen are praying for a continuation of the fine weather and making ready for a gala week-end.

In the north, Adams River is holding excellent prospects. While it is understood that one or two isolated instances were reported during the latter part of last week when the catches were not all that they might have been, week-end visitors found that this area left nothing to be desired, the fish being big and plentiful.

Last week, on information received from Joe Spurrier, Woods Lake was recommended again, and every report that has come in to date in regard to the holiday results indicates that, as usual, Joe was 100 per cent correct. Mr. J. T. Bell Sr., of the K.L.O., and Mr. J. T. Bell Jr., of Beaverdell, brought home a fine catch from that district which they obtained on a Columbia spinner and a little plug. New boats have been placed in commission at Petrie's and have made conditions much better. One service that can be obtained at Woods Lake that is appreciated by the local Waltonians is that fish can be iced immediately after being caught.

All parties who left the various Valley centres for Sugar Lake report wonderful fishing and, best of all, no mosquitoes. From Mabel Lake comes a report from Joe Cass, well known resident, to the effect that fishing is better than for some time.

Okanagan Lake lived up to its reputation over the week-end, as a fine catch by Tommy Thompson, W. Treadgold and J. Clarence will testify. Jim Brydon informs all and sundry that anyone who passes up Kalamalka Lake is missing a good thing. H. A. Willis caught a limit catch at Chute Lake and reports that there were a large number of Pentiction sportsmen there. The fish were biting well on a small spinner, either trolling or on a fly rod.

Fish Lake, back of Summerland, Bear Lake and Cariboo Lake, back of McCulloch, were all scenes of limit catches and hold considerable promise for a royal summer's entertainment.

HIGHLAND LASS AND BELL MINES NOW AMALGAMATED

New Company Incorporated With Capital Of \$1,500,000 And Head Office In Kelowna

The amalgamation of the Highland Lass and Bell properties, long under consideration, was completed last week in Vancouver, when the new company, Highland-Bell Limited, with a capitalization of \$1,500,000 and head office in Kelowna, came into being.

The joining up of these two big producing mines of the Beaverdell district is of particular interest to Kelowna because of the fact that most of the officers of the new company reside in this city and a large proportion of the shares is held here.

Situated on adjoining property, using the same equipment, working on the same vein and utilizing the services of the same mining engineer and Managing Director, the two companies

In conclusion, the Minister made an appeal for everyone to give his individual best for the province and for the Okanagan.

KELOWNA CROWD INTRODUCED TO BOX LACROSSE

(Continued from page 1)

goalie, evening the score for just a moment. Then Dominick Baker stepped into the breach and gave the North Shore their lead again after a fine display of passing and stick handling that made the local boys open their eyes.

Joe Johnston ended the first quarter by giving the Indians another point and making the score read 5-3.

The game, as played by these Coast flashes, gives plenty of opportunity for fast, rough playing and provides all the thrills that any crowd can ask for, once it gets the hang of the game. Stew Bomberly found that out when a stick laid the top of his head open and it was necessary for four stitches to be put into his scalp to keep it in its normal position.

Louie Louis and "Beer" Smith, working on the old adage, apparently, that all is fair in love and war, waged a little private war of their own against the Home boys, and only the swift action of Clarence Hough and J. A. MacConaghy prevented a general "cowboy and Indian" scrap on more than one occasion.

The goalies of both teams gave evidence that it takes real nerve to stand up in front of a little wire cage and have husky fellows sling hard rubber balls at you, with the obvious intent to commit mayhem, but they did their job well and several brilliant saves were seen during the afternoon.

A considerable increase in the interest of the spectators was noticeable during the last two quarters as the crowd began to get something of the spirit of the game and take sides with the contestants. Coincident with the greater interest of the crowd was the speeding up of the play and the last quarter, particularly, saw some boxla that would be hard to beat.

Several of the boys were sent off the field for penalties during the afternoon, some for five minutes each, usually for the airing of little private grudges that came out in the heat of the play. Checking is particularly close and tempers reach a razor-like edge after three quarters of an hour combat.

Andy Paul, well known manager of the Indians and Leo Gregory, genial Home manager, addressed the crowd and both stressed the point that they appreciated the hospitality offered them and expressed the hope that there might be a quickening of interest in boxla throughout the winter.

decided, some time ago, that a consolidation would work to the advantage of all concerned and a vote of the shareholders confirmed the deal.

A World Wide Institution

Incorporated in 1885

The agencies of the Sun Life Assurance Company of Canada encircle the globe. Active branch organizations are maintained in 40 countries on 5 continents and in 39 states of the United States of America.

The international character of the Company provides unique facilities for the service of its clients, in whatever part of the world they may reside.

There's a SUN LIFE policy for every requirement.

GOOD CHERRY PROSPECT IN OLIVER DISTRICT

Growers Look For Heaviest Crop In Years After Ideal Spring Weather

OLIVER, May 28.—Shipments of early cherries, first fruit crop of the season, are expected to commence the first week of June from orchards in the Osoyoos district. The cherry crop

holds prospects for considerable volume from the southern part of the valley, although some trees are showing signs of winter injury.

Spring weather has been almost entirely free from frost and a splendid set has been obtained, according to reports from the Oliver area. Many growers expect to gather the best crop since their trees came into bearing.

We're Happy to Announce

MISS IDA MARTYN

Is Visiting Us Again

The Nemoflex Figure Stylist is visiting in our Corset Department again to give women of Kelowna the benefit of her expert advice and experience. Make a point of talking with her about your figure problem while she's here.

Featuring ...
